Special Server Pricing for StoreNext Dealers

July 31, 2007

StoreNext dealers can now acquire the top-of-the-line Acer Altos G5 server at below-cost pricing. This is the 45TSVR1 controller/server featuring Intel Xeon and a full RAID-5 disk array for the ultimate in in-store data security.

The G5 is being sold at the same price as the current "small" G3 Acer server. As such, orders and shipments of the G3 are temporarily suspended while dealers take advantage of the unusual deal.

This offer can be honored only while supplies last – see Product Bulletin 1047-39 for the price and configuration details.

To Your Success,

Anthony van Seester
