ISS45 8140 Combines 8132/8131

May 25, 2009

To simplify support and eliminate potential faults and problems, StoreNext has combined last year's (unreleased) 8132 and 8131 major releases into the 2009 Winter Release, 8140. All the 8131/8132 features and enhancements, as well as all bug fixes, are in 8140.

8140 has completed all internal testing and is currently available for live customers. Please contact [Cheryl Schroder](#) if you want 8140 before its scheduled general release date late next month.

You will find a combined release table for 8140 with all its content - including everything from 8131 and 8132 - posted on the StoreNext Dealer Support Web site under [ISS45 Maintenance](#).

To Your Success,

Anthony van Seester
