

PRODUCT

Datalogic Falcon Mobile Computing Products

MB-POS-1212, Issue 8

January 9, 2018

This Issue 8 provides lower prices on the Falcon X3+ and significantly lower prices on several of the most popular Ease of Care service options. A new Falcon X3+ version is now available with a 2-D imager instead of a laser reader. Changes of significance are highlighted in **RED**.

NCR offers Datalogic Falcon® X3+ terminal products and accessories to Channel Partners at excellent prices.

These hand-held RF terminals are certified for use with ISS45, ScanMaster, ABO, PocketOffice, legacy RBO (4.8.0) solutions and Retailix Store/HQ systems.

Orders placed with NCR will be shipped directly to the Channel Partner.

The Datalogic Falcon X3+ mobile computer delivers the ultimate in ruggedness, ergonomics, computing and data capture technologies. Falcon X3+ options provide tailored solutions for demanding environments needing real time transaction visibility. The Falcon's Laird/Summit IEEE 802.11 a/b/g/n radio with Cisco CCX v4 certification ensures seamless roaming in large grocery store environments. Datalogic innovations include the patented good read feedback for error reduction in noisy environments and the addition of a camera for damaged goods documentation.

Falcon X3+ delivers rugged construction, laser and image data capture, along with real time communications in a product that is almost effortless to deploy and manage.

You will see improved performance from the Falcon X3+ compared to the Falcon 4400. The Falcon X3+ uses a parallel processor approach, meaning that two processors are doing the work whereas the 4400 had only a single processor. The Falcon X3+'s PXA310 806 MHz and Cortex-M3 processors increase performance dramatically, while flash memory up to 1 GB helps the X3+ run at more than twice the speed of its Falcon 4400 predecessor.

The following pages provide information and pricing on the Falcon X3+.

Datalogic Falcon X3+ Hand-Held Terminal

FALCON X3+ WARRANTY

The Falcon X3+ is warranted for one year. Channel Partners may purchase an extended or enhanced warranty for themselves or on behalf of users. See the Extended Warranty section below.

The standard one-year warranty service provides 10-day turnaround. The enhanced warranty services upgrades this first year to the faster and otherwise improved terms of the enhanced warranty selected.

In cases of early-failure (DOA or first 30 days), NCR will issue the Channel Partner an RMA for returns to Datalogic.

For standard warranty fulfillment, Channel Partners contact with Datalogic's warranty support group directly. Call 888-HELP-PSC (888-435-7772) for information.

FALCON X3+ DOCUMENTATION

All Datalogic user, installation and technical documentation available from NCR is on the [Datalogic Hardware Manuals Page](#) of the NCR Solution Provider Support Website.

FALCON X3+ SALES COLLATERAL MATERIAL

Brochures, data sheets etc. for the Falcon X3+ are available on the [Enterprise Brochures Page](#) of the NCR Solution Provider Support Website.

FALCON X3+ EASE OF CARE EXTENDED WARRANTY AND SERVICE

Extended warranty and service plans for the Falcon X3+ can now be purchased directly from NCR at discounted rates. See the pricing and configuration section of this bulletin.

The "continuous" warranty plans can only be purchased prior to the expiration of the previous warranty or Ease of Care plan. "Continuous" plans may continue to be purchased year-to-year until the end of "service life" — which is five (5) years after the product's withdrawal from sale.

One "non-continuous" Ease of Care option is provided by Datalogic which enables a user to get back on an Ease of Care plan in cases where the original warranty or Ease of Care plan has lapsed. This non-continuous plan (PSC-ZSN5FX311) can be purchased for one year and provides 5-day service only, but this plan can be upgraded to a "continuous" plan at lower pricing for subsequent years. This "non-continuous" plan may be purchased at any time as long as service is available on the terminal.

The terms of the extended warranty depend upon the Ease of Care package selected. These options are described below, and a brochure from Datalogic on the Ease of Care program is available on the [Enterprise Brochures Page](#) of the NCR Solution Provider Support Website.

EASE OF CARE SERVICE PLANS

The Ease of Care **Overnight Replacement Comprehensive Program** upgrades the initial one-year warranty period to these enhanced services:

- Next-day product replacement
- Datalogic owns and manages the spares pool on your behalf; no "extra" units to buy
- Datalogic pays all shipping via second-day air
- Normal wear and tear, component and parts failures, and incidental damage are all covered

- Coverage for damaged battery doors, tethered stylus, hand straps and screen protectors, when damaged and shipped together with a defective unit
- Strict conformance using factory parts and procedures
- Wavelink® TE and Avalanche software maintenance
- Durations available: 3-year, 5-year, 1-year continuous coverage
- Requires minimum purchase of coverage for 20 units per model type and configuration.

The Ease of Care **2-Day Comprehensive Program** upgrades the initial one-year warranty period to these enhanced services:

- Two (2) business day repair turnaround
- Datalogic pays all shipping via second-day air
- Normal wear and tear, component and parts failures, and incidental damage are all covered
- Coverage for damaged battery doors, tethered stylus, hand straps and screen protectors, when damaged and shipped together with a defective unit
- Repair to factory operational and cosmetic standards
- Strict conformance using factory parts and procedures
- Wavelink® TE and Avalanche software maintenance
- Durations available: 3-year, 5-year, 1-year continuous coverage.

The Ease of Care **5-Day Program** upgrades the initial one-year warranty period to these enhanced services:

- Five (5) business day repair turnaround
- Datalogic pays all shipping via second-day air
- Repair to factory operational standards
- Strict conformance using factory parts and procedures
- Wavelink® TE and Avalanche software maintenance
- Durations: 3-year, 5-year, 1-year continuous coverage, or 1-year non-continuous coverage.

All 3-year and 5-year Ease of Care plans must be purchased within sixty (60) days of the initial Falcon X3+ purchase.

Standard	<p>This item was previously listed as StoreNext PIN: PSC-ZSN5FX3C1.</p> <p>¶-Covers one year of extended continuous coverage after expiration of the first-year warranty or subsequent Ease of Care packages. ¶-The Ease of Care 5-Day Program provides 5 business day repair turnaround; Freight (two-day) paid both ways; Repair to factory operational standards (but not cosmetic standards); Strict conformance using factory parts and procedures; Wavelink® TE and Avalanche software maintenance. ¶-The 1-year continuous plans must be purchased prior to expiration of the previous warranty or Ease of Care plan. Continuous plans may be successively purchased year-to-year until the end of "service life," which is five (5) years after the product's withdrawal from sale. If the warranty or Ease of Care support plan has lapsed, coverage may be re-started using the non-continuous 1-year plan (PSC-ZSN5FX311).</p>			Partner Net Price: \$82.
Datalogic Falcon X3 Service Plans: Non-Continuous/Restart		List Price	Install Price	Maint Price
PIN	Description			
7952-K600-V150	— Datalogic Falcon X3 Ease of Care Coverage 5-Day Turnaround, One Year, Non-Continuous	\$175		
Standard	<p>This item was previously listed as StoreNext PIN: PSC-ZSN5FX311.</p> <p>¶-Provides one year of coverage if the first-year warranty or a subsequent Ease of Care package has expired and the product is no longer warranted. This plan does not require continuous service - it can be purchased even if the warranty or prior plan has expired, but it is more expensive than the continuous plans. If this plan has been purchased, one of the Annual Continuous plans may be purchased prior its expiration at lower cost for ongoing service. If the warranty or Ease of Care is still current, do not use this non-continuous plan: use instead one of the continuous plan offerings at lower cost. ¶-The Ease of Care 5-Day Program provides 5 business day repair turnaround; Freight (two-day) paid both ways; Repair to factory operational standards (but not cosmetic standards); Strict conformance using factory parts and procedures; Wavelink® TE and Avalanche software maintenance. ¶-This 1-year plan for 5-day service may be purchased at any time during the service life of the product which is up to five (5) years after the product's withdrawal from sale. This 5-day service plan is the ONLY non-continuous plan available; two-day and overnight non-continuous plans are not offered by Datalogic.</p>			Partner Net Price: \$130.
