

Update Bulletin

Solidcore S3 Licensing Changes

November 20, 2008

As of January 1, 2009, Solidcore S3 licenses will no longer be included with new ISS45 or ScanMaster licenses.

Users desiring Solidcore can order the product in the same way as other software systems and options. Please see the Solidcore Product Bulletin (1215) for ordering and pricing information.

ISS45 and ScanMaster systems shipped since December 1, 2006 included licensing rights for Solidcore S3 Embedded at no additional charge. Many customers have not taken advantage of these rights, which will expire at the end of this year. All sites that have not fulfilled a potential Solidcore license (by taking delivery via the software key) will have waived these licenses as of January 1, 2009.

Dealers wishing to fulfill and install any currently unfulfilled potential Solidcore S3 Embedded licenses need to enable any such licenses before January 1 by following this process:

- The system must be a StoreNext ISS45 or ScanMaster system shipped after December 1, 2006 and before January 1, 2009
- The dealer must be a Solidcore-Authorized dealer
- Order the no-charge License Enablement PIN below with a P.O. to order entry
- A completed SKIF must accompany the order for each site
- The standard \$28 per system handling charge will apply to each SKIF
- The dealer will receive the updated key file via e-mail.

PIN	Item	Price	Inst	Maint
SCS3LE	Solidcore S3 for ISS45 and StoreNext ScanMaster, license enablement only Use this PIN when enabling a Solidcore license. Note that this PIN cannot be used to license a site - it can only enable an existing license that was not originally enabled. Please note that Software Production is required to ensure that the keys being updated are actually from a licensed site. This PIN expires and cannot be accepted after December 31, 2008.	\$ 0	\$ 100	\$ 50
