1 Market Leading Performance With

SurroundScan™ 3D Scanning™ Technology

- SurroundScan™ 3D Scanning™ technology reads all six sides of a scanned object which reduces cashier fatigue and the need for training
- Increases productivity by reducing label orientation
- Improved ergonomics reduce risk of repetitive motion injuries
- Scan pattern optimized for both sweep and presentation scanning.

2 Enhanced All-Weighs™ Scale Platter Reduces Shrink

- Provides easy and accurate weighing of long produce items
- Shrink can be reduced by up to 10% per transaction
- Integrated Produce Rail™ holds produce for faster weighing in any direction

3 Powerful FirstStrike™ Decode Software

- Autodiscriminates all supported symbologies
- Easily reads:
 - RSS-14, RSS Omni-Stacked and RSS Expanded
 - Torn and disfigured bar codes
 - Overprinted and underprinted bar codes

4 High Value Options

- Sapphire Glass and stainless steel platter
- Checkpoint® ready EAS antenna
- Cashier Training™ Software
- Productivity Index Reporting™ Software

5

Serviceability & Easy Maintenance By Design

- Built-in diagnostics and numeric display indicate failed assemblies with 98% accuracy
- Compact design allows interface board replacement by removing two screws
- All cable connectors are located in the back for easy access
