# Introduction

Enhancements were recently made to the StoreNext ISS45 system. The changes are reflected in the accompanying ISS45 7.1.4.0-100 software. The Change Request Document (CRD) number assigned to each enhancement is listed in the description heading.

Following the change description is an abbreviation (or combination thereof) of the ISS45 area affected:

(BO) – Back Office

(POS) – WinPOS

(Sys) – System / Services

These enhancements are explained in detail in the following pages and are not included in the latest Office Users Guide, WinPOS User Guide and Office Administrator's Reference. If you have any questions regarding this release, please contact StoreNext Support.

## **262620 – Smart Card WIC PIN Pad Messaging (POS)**

In sites using Smart Card WIC EBT, if the tendered Smart Card WIC EBT card has no benefits (i.e. all benefits have been depleted to 0), the PIN Pad will now display the “All Current WIC Used” message to the customer.

## 315038 – Group Promotion Support for Weighted Items (BO)

UPC2 (price-embedded) weighted items can now be included in Group-type Member Promotions. (In previous releases these items were not allowed to be attached to a Group Promotion.)

ISS45 now validates if a weighted item being attached to the Group Promotion is a UPC2 (price-embedded) weighted item. If so, it is allowed to be attached to the promotion.

**Note:**

Weighted items that are not UPC2 (price-embedded) will continue to be prohibited from attaching to Group Promotions (and an error message will display when attempting to attach them).

**Note:**

The UPC2 weighted item is parsed according to the "Item includes check digit (for POST)" parameter setting (6-1-1-7, #11).

# Technical Reference Appendix

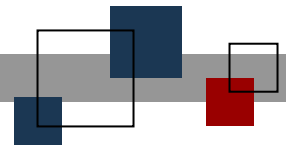

## Out of Scope

Limitations of new features in this release are listed below (and were not addressed in development).

**Note:**

The limitations below are known as of this writing, and are provided in order to assist users and support personnel to plan, install and operate the capabilities described in this document. While StoreNext Retail Technologies LLC endeavors to ensure that this information is correct and fairly stated, no attempt is made here to catalog all limitations that could be construed or that may become known in the course of use or experience.

FSD Number	Enhancement	Out of Scope
262620	Smart Card WIC PIN Pad Messaging	Smart Card WIC PIN Pad Messaging is available for the current release only (and will not be made compatible with previous ISS45 releases).
315038	Group Promotion Support for Weighted Items	Group Promotion Support for Weighted Items is available for the current release only (and will not be made compatible with previous ISS45 releases).

**© StoreNext Retail Technologies LLC 2012**

StoreNext Retail Technologies LLC endeavors to ensure that the information in this document is correct and fairly stated but does not accept liability for any error or omission.

The development of StoreNext products and services is continuous and published information may not be up to date. It is important to check the current position with StoreNext. This document is not part of a contract or license save insofar as may be expressly agreed.
