275822 – New Maximum Number of History Days for EJ (BO)	3
Technical Reference Appendix	4
Out of Scope	4

Introduction

Enhancements were recently made to the StoreNext ISS45 system. The changes are reflected in the accompanying ISS45 7.1.5.0-070 software. The Change Request Document (CRD) number assigned to each enhancement is listed in the description heading.

The Change Request Document (CRD) number assigned to each enhancement is listed in the description heading. Following the change description is an abbreviation (or combination thereof) of the ISS45 area affected:

(BO) – Back Office

(POS) – WinPOS

(Sys) – System / Services

These enhancements are explained in detail in the following pages and are not included in the latest Office Users Guide, WinPOS User Guide and Office Administrator's Reference. If you have any questions regarding this release, please contact StoreNext Support.

273300 – Smart Card WIC PIN Pad Messaging (POS)

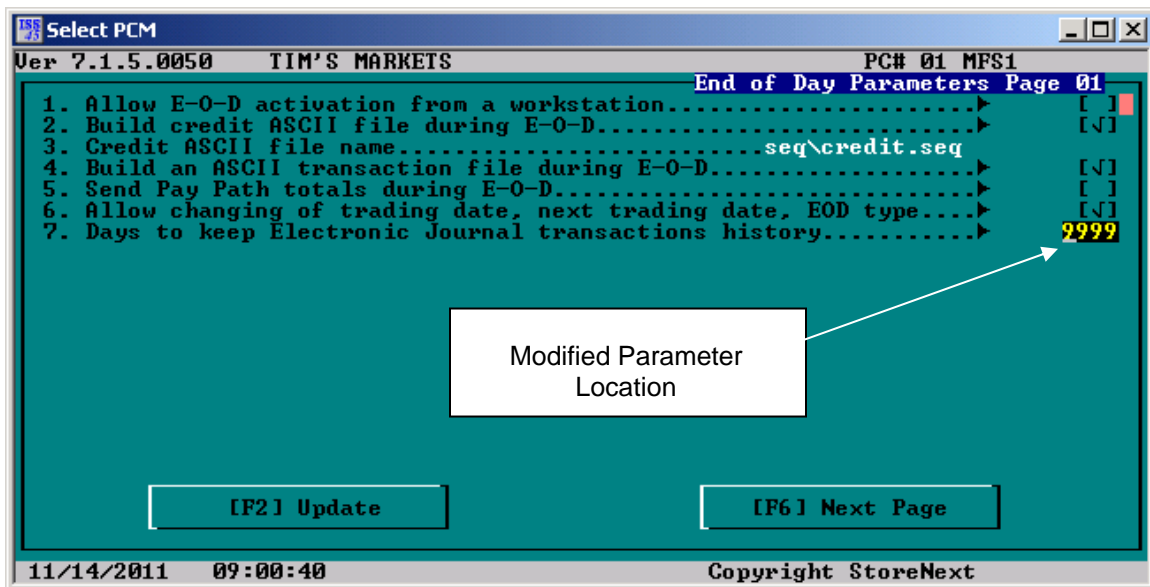

In sites using Smart Card WIC EBT, if the tendered Online WIC EBT card has no benefits (i.e. all benefits have been depleted to 0), the PIN Pad will now display the “All Current WIC Used” message to the customer.

275822 – New Maximum Number of History Days for EJ (BO)

Some states now require stores save three years of receipt data for WIC transactions. To accommodate this requirement, the “Days to keep Electronic Journal transaction history” parameter has a new maximum setting of “9999” in this release.

Modified Parameter

To support this feature, the “Days to keep Electronic Journal transaction history” has been modified in the **End of Day Parameters** Screen (6-1-1-4).

Parameter	Explanation
Days to keep Electronic Journal transaction history	Enter the number of days to keep transaction history within the Electronic Journal. The default is 30 (with a maximum setting of 9999).

Technical Reference Appendix

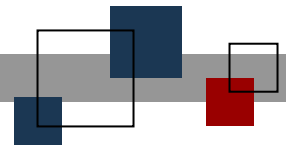

Out of Scope

Limitations of new features in this release are listed below (and were not addressed in development).

Note:

The limitations below are known as of this writing, and are provided in order to assist users and support personnel to plan, install and operate the capabilities described in this document. While StoreNext Retail Technologies LLC endeavors to ensure that this information is correct and fairly stated, no attempt is made here to catalog all limitations that could be construed or that may become known in the course of use or experience.

FSD Number	Enhancement	Out of Scope
273300	Smart Card WIC PIN Pad Messaging	Smart Card WIC PIN Pad Messaging is available for the current release only (and will not be made compatible with previous ISS45 releases).
275822	New Maximum Number of History Days for EJ	The New Maximum Number of History Days for EJ is available for the current release only (and will not be made compatible with previous ISS45 releases).
