13059 – Store MTXEPS Receipt Copy Suppression (FO/POS) .....	3
Front Office.....	3
POS.....	3
<b>Technical Reference Appendix</b> .....	<b>4</b>

# Introduction

A new feature was recently added to the StoreNext ISS45 system and a previous development was removed. These changes are reflected in the accompanying ISS45 8.1.5.0-080 software.

The Change Request Document (CRD) number assigned to each enhancement is listed in the description heading. Following the change description is an abbreviation (or combination thereof) of the ISS45 area affected:

(FO) – Front Office

(POS) – WinPOS

If you have any questions regarding this release, please contact StoreNext Support.

## **13052 – Weights and Measures Rule Reversal (POS)**

As part of the Weights and Measures certification, POS development instituted a “Remove Previous Weight” warning message in ISS45 8.1.5.0-070 that was issued when the scale weight was not reset (to zero weight) prior to the next weight command being received.

A subsequent ruling by Weights and Measures reversed this requirement. Therefore, logic surrounding the enforcement of a stable, zero weight between scale reads has been removed in this release.

## 13059 – Store MTXEPS Receipt Copy Suppression (FO/POS)

A new General System Parameter found in the release gives the retailer the option to suppress printing the store copy of the EFT receipt for non signature-required transactions when MTXEPS receipt printing is used. In previous ISS45 releases, if the General System Parameter “Use MTX Receipt Data” parameter was enabled, the POS printed the drawer copy (signature slip) sent by MTXEPS for all electronic tenders.

**Note:**

The store copy of the receipt will continue to write to the Electronic Journal regardless of whether the store copy is printed.

### Front Office

#### New Parameter

As part of this feature a new parameter has been established. The following General System Parameter is located in the Store \ POST \ MTX EFT folder.

Parameter	Explanation
Suppress store copy receipt for Non-Signature MTX	When this parameter is set to Yes, the system will suppress printing MTX receipts on EFT transactions where no customer signature is required.

**Note:**

The General System Parameter “Use MTX Receipt Data” (located in the Store \ POST \ MTX EFT folder) determines if MTXEPS receipts are used.

### POS

After a cashier tenders and EFT transaction and approval is received, the POS checks to see if both the “Use MTX Receipt Data” and “Suppress store copy of MTX receipt for no signature required” parameters are enabled. If both are enabled and a signature is not required for the transaction, the POS does not print the buffered drawer copy of the signature slip.

# Technical Reference Appendix

## Out of Scope

Limitations of the new feature in this release are listed below (and were not addressed in development).

**Note:**

The limitations below are known as of this writing, and are provided in order to assist users and support personnel to plan, install and operate the capabilities described in this document. While StoreNext Retail Technologies LLC endeavors to ensure that this information is correct and fairly stated, no attempt is made here to catalog all limitations that could be construed or that may become known in the course of use or experience.

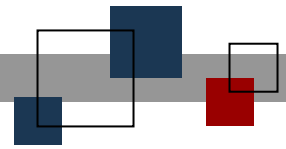

<b>FSD Number</b>	<b>Enhancement</b>	<b>Out of Scope</b>
13059	Store MTXEPS Receipt Copy Suppression	Store MTXEPS Receipt Copy Suppression is available for the current release only (and will not be made compatible with previous ISS45 releases).  Store MTXEPS Receipt Copy Suppression development excluded:  1. Any changes to EFT Transactions handled during Sale Mode (i.e. Gift Card Activations/Deactivations/Recharge).

## Dependencies

Dependencies to utilize the new feature in this release are listed below.

FSD Number	Enhancement	Dependencies
13059	Store MTXEPS Receipt Copy Suppression	<ol style="list-style-type: none"><li data-bbox="581 674 1045 705">1. Use of MTXEPS as the EFT interface.</li><li data-bbox="581 741 902 772">2. Buffer printing enabled.</li></ol>
