# Introduction

An enhancement was recently made to the StoreNext ISS45 system. The change is reflected in the accompanying ISS45 8.1.5.4-090 software. The Change Request Document (CRD) number assigned to the enhancement is listed in the description heading. Following the change description is an abbreviation of the ISS45 area affected:

(POS) – WinPOS

If you have any questions regarding this release, please contact StoreNext Support.

## 316019 – Fujitsu U-SCAN Self-Checkout Support for DRE (POS)

In sites using Retailix Loyalty, the StoreLine Dynamic Receipt Engine (DRE) is now supported on Fujitsu U-SCAN Self-Checkout Terminals. This feature allows target messages (barcodes, vouchers, images) to be printed at Self-Checkout Terminals.

**Note:**

At the end of a Self-Checkout Terminal ticket, a new POS\_DYNAMIC\_RECEIPT\_XML\_FILE message (Op Code 366) is sent to the printer (along with the file name of the XML). The Self-Checkout Terminal parses the XML message for printing (which is control by the U-SCAN printer).

# Technical Reference Appendix

## Out of Scope

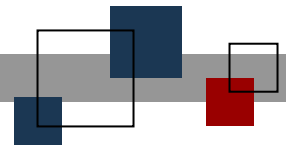

Limitations of the new feature in this release are listed below (and were not addressed in development).

**Note:**

The limitations below are known as of this writing, and are provided in order to assist users and support personnel to plan, install and operate the capabilities described in this document. While StoreNext Retail Technologies LLC endeavors to ensure that this information is correct and fairly stated, no attempt is made here to catalog all limitations that could be construed or that may become known in the course of use or experience.

FSD Number	Enhancement	Out of Scope
316019	Fujitsu U-SCAN Self-Checkout Support for DRE	Fujitsu U-SCAN Self-Checkout Support for DRE is available for the current release only (and will not be made compatible with previous ISS45 releases).
