Introduction

An enhancement was recently made to the Retalix ISS45 system. The change is reflected in the accompanying ISS45 8.1.6.0-130 software. The Change Request Document (CRD) number assigned to the enhancement is listed in the description heading. Following the change description is an abbreviation of the ISS45 area affected:

(Sys) – System

The enhancement is explained in detail in the following pages and is not included in the latest Office Users Guide, WinPOS User Guide or Office Administrator's Reference. If you have any questions regarding this release, please contact Retalix Support.

356432 – FTP Communication and APL Processing Support through Batch Files (Sys)

ISS45 now supports FTP communication and APL processing through the modified SQLhuk.bat and WICCOMM.BAT files installed in this release.

Technical Reference Appendix

Out of Scope

A limitation of the new feature in this release is listed below (and was not addressed in development).

Note:

The limitations below are known as of this writing, and are provided in order to assist users and support personnel to plan, install and operate the capabilities described in this document. While Retalix endeavors to ensure that this information is correct and fairly stated, no attempt is made here to catalog all limitations that could be construed or that may become known in the course of use or experience.

| FSD Number | Enhancement | Out of Scope |
|------------|--|--|
| 356432 | FTP Communication and APL Processing Support through Batch Files | Changes made to support FTP Communication and APL Processing Support through Batch Files were made for the current release only (and will not be made to previous ISS45 releases). |
