# Introduction

An enhancement was recently made to the Retalix ISS45 system. The change is reflected in the accompanying ISS45 8.1.6.0-140 software. Parameter	Explanation
Accept Promotion Coupons at any time during Itemization	When set to “No”, the promotion coupon is accepted only if other promotion terms are met or after “Total” is pressed. When set to “Yes”, the promotion coupon is accepted any time during itemization.

### POS

When the new “Accept Promotion Coupons at any time during Itemization” is set to “Yes”, promotion coupons can be entered into the ticket at any time prior to total. If set to “No”, coupons are only accepted after the ticket is totaled (or after promotion requirements have been met).
