Introduction

Enhancements were recently made to the StoreNext ISS45 system. The changes are reflected in the accompanying ISS45 8.1.7.0-060 software. The Change Request Document (CRD) number assigned to each enhancement is listed in the description heading.

The Change Request Document (CRD) number assigned to each enhancement is listed in the description heading. Following the change description is an abbreviation (or combination thereof) of the ISS45 area affected:

(FO) – Front Office

(POS) – WinPOS

(Sys) – System / Services

These enhancements are explained in detail in the following pages and are not included in the latest Office Users Guide, WinPOS User Guide or Office Administrator's Reference. If you have any questions regarding this release, please contact StoreNext Support.

334239 – Customer Display Change for EBT (POS)

EBT balances no longer display on the customer display (in tickets tendered with EBT SNAP and EBT Cash) to better protect the customer's privacy.

351633 – Virginia Online WIC EBT (FO/POS)

ISS45 now supports Online WIC EBT (a.k.a. “eWIC”) for the state of Virginia.

Front Office

The state code for Virginia may now be configured in the Front Office. The APL file is processed using the state code “WV”.

POS

When the Virginia state code is configured for Online WIC EBT in the Front Office, the POS uses the same operating rules as the state of Michigan when tendering Online WIC EBT.

Note:

When a vendor coupon is applied against an item paid with Virginia Online WIC EBT, tax collected is only on the vendor coupon amount.

377588 – New Retailix Loyalty Parameter (FO/POS)

A new parameter found in this release provides more flexibility in handling promotion coupons in sites where Retailix Loyalty is enabled.

Front Office

New Parameter

The following new General System Parameter is located in the Store \ Technical \ Retailix Loyalty folder.

Parameter	Explanation
Accept Promotion Coupons at any time during Itemization	When set to “No”, the promotion coupon is accepted only if other promotion terms are met or after “Total” is pressed. When set to “Yes”, the promotion coupon is accepted any time during itemization.

POS

When the new “Accept Promotion Coupons at any time during Itemization” is set to “Yes”, promotion coupons can be entered into the ticket at any time prior to total. If set to “No”, coupons are only accepted after the ticket is totaled (or after promotion requirements have been met).

Technical Reference Appendix

Out of Scope

Limitations of new features in this release are listed below (and were not addressed in development).

Note:

The limitations below are known as of this writing, and are provided in order to assist users and support personnel to plan, install and operate the capabilities described in this document. While StoreNext Retail Technologies LLC endeavors to ensure that this information is correct and fairly stated, no attempt is made here to catalog all limitations that could be construed or that may become known in the course of use or experience.

FSD Number	Enhancement	Out of Scope
334239	Customer Display Change for EBT	Customer Display Changes for EBT were made for the current release only (and will not be made to previous ISS45 releases).
351633	Virginia Online WIC EBT	Changes made to support Virginia Online WIC EBT were made for the current release only (and will not be made to previous ISS45 releases).
377588	New Retailix Loyalty Parameter	The New Retailix Loyalty Parameter was added for the current release only (and will not be made to previous ISS45 releases).

Dependencies

Dependencies to utilize new features in this release are listed below.

FSD Number	Enhancement	Dependencies
351633	Virginia Online WIC EBT	1. Use of the same Retalix Global Payment DLL versions that were certified with the Michigan Online WIC EBT program is required.
377588	New Retalix Loyalty Parameter	1. The General System Parameter "Retalix Loyalty in System" (located in the Store \ Technical \ Retalix Loyalty folder) must be set to "Yes".
