

## Technical Bulletin

### Epson OPOS Versions and Setup for H-6000-IV Printers

POS-TECH-12:04

March 15, 2012

StoreNext has released the Epson TM-H6000IV printer for general availability with StoreNext POS systems.

This printer has been tested and certified with:

- ISS45 7.1.5.0-050
- ISS45 8.1.5.2-050
- ScanMaster 2.07.02-050

When installing and configuring the Epson OPOS, this printer must be set to emulate a TM-H6000III.

You should also download and install Epson OPOSADK V266E since this was the OPOS version that has been certified. This OPOS version is available from:

<ftp://ftp.storenext.com/iss45support/Epson>

<ftp://63.241.207.112/d/sites/ISS45SUPPORT/Epson/OPOS/OPOSADK/V266E/>
