ISS45 TeamPoS 5000 Configuration Summary

MB-ISS45-1057 Issue 15
March 15, 2001

[This Issue 15 contains many minor price changes on components and adjustments on TeamPoS 5000 packages. The 166 MHz TeamPoS 5000 models and packages are withdrawn and no longer available. TeamPoS Select Packages, which have been limited availability, have now been withdrawn. The 300 MHz TeamPoS packages are now equipped with 20GB disks.]

Fujitsu-ICL is pleased to describe the TeamPoS configurations for use with **ISS45**. These packages give you flexibility in how you sell and price **ISS45** systems to your customers. See below for the latest new configurations plus product news, product line extensions and withdrawals relating to TeamPoS.

TEAMPOS 300MHZ PACKAGES

300MHz TeamPoS 5000 packages have replaced the earlier 266MHz units. These units are shipped standard with 64MB RAM and large 20GB hard disk drives.

The performance improvement in the 300MHz unit is significant compared to the 266MHz or 166MHz controller it replaces. While the clock speed is only moderately increased, the 300 represents an entirely new processor family, the K6-2, which provides major improvements in graphics handling and other areas that results in an obvious speed enhancement. This makes the 300MHz units the obvious TeamPoS 5000 platform choice for the new **ISS45** Windows PoS application.

TEAMPOS '486 AND P166 PACKAGES WITHDRAWN

The "smallest" TeamPoS unit now available is the 300 MHz unit. These packages are now equipped with 64MB RAM and 20GB drives. No pricing changes have been made to the 300 MHz units.

TEAMPOS PACKAGE PRICING

The higher 49% Dealer pricing (for 60-day and some wholesaler programs) is available only when full terminal packages are ordered. If, for example, a "no-keyboard, no-display" package is ordered without an associated keyboard or display, then the maximum discount available will be 46%.

DISCOUNT ON 14 INCH DISPLAYS

Fujitsu-ICL 14" monitors are continue to be priced at \$239 list with a 40% discount available. Please see Page 6 for this item. This places the price of a top-quality SVGA monitor from Fujitsu-ICL to \$143, including the simplified new direct warranty service.

This document and information are supplied to third parties to assist them in doing business with Fujitsu-ICL. They are not to be used or distributed for any other purpose.

Fujitsu-ICL endeavors to ensure that the information in this document is correct and fairly stated, but does not accept liability for any error or omission.

TEAMCONSOLE

Fujitsu-ICL has available an exciting keyboard/screen product, the *TeamConsole* TFT units. These units use Thin Film Transistor technology to replace the former "DSTN" screen type for greater 800x600 resolution, brightness and contrast and speed.

TeamConsole TFT supports the **ISS45** WinPoS dual display release and the refresh speed of the TFT version makes implementation of full-motion video possible. Note that a dual display (for example, *TeamConsole* for the clerk and a VGA for the shopper) is supported in **ISS45** WinPoS, but Win98 or Win2000 is required to support this — Microsoft NT will not support dual VGA screens showing separate information without special drivers until Windows2000.

When it comes to sizzle, it's hard to beat the Fujitsu-ICL *TeamConsole* Screen/Keyboard combination. With a flat-screen display for the clerk, *TeamConsole* provides a PoS keyboard and a set of Soft Keys that dynamically change descriptions based upon the current state of the transaction. *TeamConsole* is built to withstand extreme use, and is a powerful answer to competing dynamic keyboards. See Marketing Bulletin #1135 for more information.

Information on this product is listed in this bulletin for ease of reference.

TEAMCOM AND WINDOWS

Previous bulletins discussed the relationship between the Windows operating system and the operation of large numbers of serial ports. The OPC method, which drove multiple serial ports via a single parallel port, was described as not suitable to Windows configurations.

With the upcoming release of **ISS45 V8**, ICL has managed a special set of drivers that allow older OPC configurations to operate with the new WinPoS terminal software. This means that an upgrade to TeamCom will ***not be required*** to support WinPoS. Keep in mind, however, that WinPoS and Microsoft have performance considerations and requirements for modern processors — if the processor does not have the minimum performance (see Marketing Bulletin 1118) an upgrade will be required for that reason. **ISS45** Version 7.4.4 and later software is compatible with either TeamCom or OPC, and can run on either type of hardware.

TeamCom, however, is still a preferable serial port support technology. TeamCom provides multiple standard serial ports, including power, directly from the bus. The TeamCom card is equipped with a jumper that allows the TeamCom card to be configured as an OPC card, providing compatibility with OPC applications.

Regarding upgrading older units, all TeamPoS 5000 Pentium versions can be upgraded to TeamCom. In addition, all DX4/100 units are upgradable to TeamCom, as are several of the DX2/66 versions. See the TeamCom upgrade section starting on Page 11. Keep in mind, however, that despite **ISS45**'s best efforts, performance on Pentium class machines will be far superior with Windows than a '486 class with the TeamCom upgrade. Microsoft formally does not support '486 for Windows NT, although there is no such restriction on Windows98.

A new version of the TeamPoS 5000 Reference Manual is available — see Page 13. A then-current Adobe Acrobat™ version of this document is provided on the **ISS45** 7.6.1 CD-ROM, and up-to-date versions are always available on the **ISS45** web site.

PACKAGES WITH NO KEYBOARD/NO DISPLAY

To simplify ordering using the new *TeamConsole* and ScreenKey products, Fujitsu-ICL offers TeamPoS 5000 packages that allow selection of your choice of keyboard and display configurations. See Page 15 for these configurations.

TEAMPOS DISPLAY PLATFORM FOR 14" MONITORS

Remember that Fujitsu-ICL offers a TeamPoS 5000 option to improve integration with a 14" Fujitsu-ICL monitor. This platform fits on top of the TeamPoS 5000 controller slice to support the monitor. The current version adds a lip that enhances the visual appeal and inhibits slippage. See the listing for this item on Page 6 in the section regarding TeamPoS 5000 displays.

RAM

Current TeamPoS 5000 RAM configurations accept DIMMs with the new motherboard releases since mid 1998. These boards have two SIMM slots and two DIMM slots: the board can be populated with *either* SIMMs or DIMMs, but not both. If SIMMs are used, then they must be installed in matching pairs. DIMMs can be installed singly. ICL also began shipping single DIMM configurations for 32MB and 64MB models in 1998, ensuring further RAM upgradability at minimum cost.

SIMMs sold with earlier TeamPoS 5000 units are usable in the new configurations.

TEAMPOS DUAL VGA OPTION

Fujitsu-ICL provides a TeamPoS 5000 option allowing dual conventional VGA displays — this for use when the same information is to be displayed on both screens. (A dual shopper/clerk display set with differing information is available with WinPoS.) The kit contains a VGA splitter, additional VGA cable and mains cable, and it enables the user to provide dual VGA monitors, one for a clerk and another for the shopper. Fujitsu-ICL has achieved the required 50-state Weights & Measures approvals for this new configuration. Note that the information displayed on the two monitors will be identical. The listing and PIN for this item can be found on Page 6 below in the Standard PC Display section.

These keyboard items are discounted at the applicable rate for the TeamPoS terminals appearing on the same order. On **ISS45** orders for example, they are discounted at the 46%/49% rate. If not ordered with a full terminal, the discount is limited to 40%.

³ Requires Controller Card and footed stand (or some other mounting mechanism). These *Team*Console versions require current DX4/100 or Pentium TeamPoS 5000 terminals and a PCI slot on the TeamPoS riser card. Touch versions also require an ISA slot on the riser card to accommodate the touch screen daughter board. See Marketing Bulletin #1135 for details.

⁴ Controller Card required for all installations.

⁵ Controller Card required for all installations. Touch version of the controller card set required for touch operation.

⁶ Footed stand or other mounting mechanism required.

The price of the demonstration kit is RETAIL *partner* net. No discounts are available.

TEAMCOM UPGRADES:

ICL offers the following products to upgrade an ICL TeamPoS OPC configuration to TeamCom. These configurations will allow use of the terminal with Windows configurations of **ISS45**. These upgrade materials will be available as of July 1998.

Pentium TeamPoS can be upgraded to TeamCom without a motherboard change. Some but not all '486 units can be upgraded to TeamCom without changing the motherboard.⁸

The upgrade items immediately following assume the use of the same motherboard. That is, the upgrade does not include a motherboard change-out. The TeamCom board and one riser card are required. SIMM memory units from older TeamPoS units can be used in the new configurations.

PIN	Item	Price	Inst	Maint
PB600444	TeamCom Upgrade Kit. Requires choice of TeamCom compatible Riser Card — see below	\$ 424	N/A	N/A
PB600443	TeamCom Riser Card for Pentium. 3 ISA slot version	54	N/A	N/A
PB600338	TeamCom Riser Card for Pentium. 2 PCI slot + 1 ISA slot version	67	N/A	N/A
PB600496	TeamCom Riser Card for 3.3V '486 TeamPoS. 3 ISA slot version	54	N/A	N/A
45PENUPG	TeamPoS Pentium Motherboard and Riser Card Upgrade Kit. Contains 1@TeamPoS Pentium Motherboard 80215502 and 1@TeamPoS Pentium Riser Card 88836546	298	N/A	N/A
45PEN2UPG	TeamPoS Pentium Motherboard and Power Supply Upgrade Kit. Contains 1@TeamPoS Pentium Motherboard 80215502 and 1@TeamPoS Pentium Power Supply 80215544	545	N/A	N/A
45PEN3UPG	TeamPoS Pentium OPC and Power Supply Upgrade Kit. Contains 1@TeamPoS OPC 88836544 and 1@TeamPoS Pentium Power Supply 80215544	543	N/A	N/A

⁸ The upgradable '486 units are the more recent 3.3V controller units that started shipping approximately Q2 of 1997. Check the PIN on the configuration label for the voltage of the processor chip.

PIN	Item	Price	Inst	Maint
45DXUPG	TeamPoS DX4 Motherboard and Riser Card Upgrade Kit. Contains 1@TeamPoS DX4 Motherboard 80215501 and 1@TeamPoS DX4 Riser Card 88836545	250	N/A	N/A
45DX2UPG	TeamPoS DX4 Motherboard and Power Supply Upgrade Kit. Contains 1@TeamPoS DX4 Motherboard 80215501 and 1@TeamPoS Pentium Power Supply 80215544	470	N/A	N/A
45DX3UPG	TeamPoS DX4 OPC and Power Supply Upgrade Kit. Contains 1@TeamPoS OPC 88836544 and 1@TeamPoS Pentium Power Supply 80215544	518	N/A	N/A

ICL RETAIL *partners* will receive a 40% discount on these items.

If a motherboard change is required or desired, the following items must be added to the above TeamCom and Riser Card to complete the upgrade:

PIN	Item	Price	Inst	Maint
PB600471	OPN PC Board Kit/PAK2005 R3. Includes TeamPoS 5000 motherboard for Pentium-class machines w/o processor chip. Supports Intel 100/133/266 Pentium or AMD 266 K6 processors. These processors can be purchased separately from ICL or procured locally.	\$ 290	N/A	N/A
PB600380	Intel P5/166 CPU for PB600471	175	N/A	N/A
PB600478	TeamPoS 5000 Processor Fan & Heat Sensor kit for PB600471. Required for all Pentium-equipped motherboard implementations. Requires Power Supply unit equipped with heat sensor and processor fan. ⁹	55	N/A	N/A
PB600074	TeamPoS 5000 Power Supply Unit with support for PB600478 fan and sensor.	425	N/A	N/A

ICL RETAIL *partners* will receive a 40% discount on these items.

⁹ This PB600478 kit includes the special separate cooling fan that mounts on a Pentium class microprocessor and the heat sensor to detect fan failure. These must be connected to the TeamPoS 5000 power supply, but not all TeamPoS power supplies have the necessary connectors and circuitry to support the separate fan and heat sensor. Power supplies originally shipped with Pentium class TeamPoS 5000 units all have this circuitry. Power supplies originally shipped with '486 class TeamPoS 5000 units will not have this circuitry. If a '486 TeamPoS unit is to be upgraded to a Pentium-class motherboard, the fan/sensor must be added, and also the Power Supply unit itself must be traded out in favor of a PB600074 for fan/sensor support.

DOCUMENTATION:

This manual has been recently updated for TeamCom and the most recent TeamPoS configurations. Please note that the current version of this document is always available at no charge as a download from the **ISS45** Support Web Site.

TEAMPOS 5000 300MHZ COLOR PACKAGES FOR ISS45 WITH TEAMCOM:¹¹

PIN	Item	Price	Inst	Maint
	TeamPoS 5000 300P/64/20G/TeamCom PoS Terminal, Color, Integrated. Includes 300 MHz K6-2 Processor Slice with 20G Disk and 64MB RAM, Integrated TeamCom, Cash Drawer, 92M or 92R PoS Keyboard, 9" Color Operator Monitor (with terminal mount base), Ethernet 10-Base-T LAN card, Cables for integrated configuration. No MSR.		See Page 5 for these prices	
45218/814	With ADT 40 1½ Station Thermal Printer (w/o MICR) and int. cable	\$ 5,457		\$ 640
45218/824	With ADT 40 1½ Station Thermal Printer (w/ MICR) and int. cable	5,707		675
	TeamPoS 5000 300P/64/20G/TeamCom PoS Terminal, Color, Dispersed. Includes 300 MHz K6-2 Processor Slice with 20G Disk and 64MB RAM, Integrated TeamCom, Cash Drawer, 92M or 92R PoS Keyboard, 9" Color Operator Monitor (with standard base), Ethernet 10-Base-T LAN card, Cables for dispersed configuration. No MSR.		See Page 5 for these prices	
45218/816	With ADT 40 1½ Station Thermal Printer (w/o MICR) and disp. cable	5,484		640
45218/826	With ADT 40 1½ Station Thermal Printer (w/ MICR) and disp. cable	5,714		675
	TeamPoS 5000 300P/64/20G/TeamCom Controller Terminal, Color, Integrated. Includes 300 MHz Processor Slice with 20G Disk and 64MB RAM, Integrated TeamCom, Cash Drawer, 133PQ PoS/QWERTY Keyboard, 9" Color Operator Monitor (with terminal mount base), Ethernet 10-Base-T LAN card, Cables for integrated configuration. No MSR.		See Page 5 for these prices	
45218/815	With ADT 40 1½ Station Thermal Printer (w/o MICR) and int. cable	5,352		640
45218/825	With ADT 40 1½ Station Thermal Printer (w/ MICR) and int. cable	5,602		675

These items are offered at the 46%/49% Dealer discount.

¹¹ PIN Logic:
 - 45218 is the ISS45 Package PIN base number for TeamPoS 5000
 - /0xx was 25MHz '486SX, /1xx was 33MHz '486SX, /2xx is 66MHz '486DX2, /3xx is 100MHz Pentium, /4xx is 100MHz '486DX4, /5xx is 166MHz Pentium, /6xx is 166MHz Pentium with TeamCom, /7xx is 266MHz with TeamCom, /8xx is 300MHz K6-2 with TeamCom
 - /x0x is Fujitsu printer, /x1x is ADT 40, /x2x is ADT 40 with MICR, /x3x is No Printer
 - /xx1 is Integrated Mono, /xx2 is Controller Mono, /xx3 is Dispersed Mono, /xx4 is Integrated Color, /xx5 is Controller Color, /xx6 is Dispersed Color, /xx7 is Integrated No Monitor, /xx8 is Controller No Monitor, /xx9 is Dispersed No Monitor, /xxA is Integrated No Monitor No Keyboard, /xxB is Controller No Monitor No Keyboard, /xxC is Dispersed No Monitor No Keyboard

TEAMPOS 5000 300MHZ NO KEYBOARD/NO DISPLAY PACKAGES FOR ISS45:

Use the Display and Keyboard components on Pages 6 and 7 to complete these configurations as required:

PIN	Item	Price	Inst	Maint
	TeamPoS 5000 PoS Terminal, No Keyboard/No Display package, integrated . Includes Processor Slice with Disk and RAM, Integrated TeamCom or OPC, Cash Drawer, Ethernet 10-Base-T LAN card, ADT40 Printer w/ or w/o MICR, Cables for integrated configuration			
45218/81A	300MHz w/TeamCom, 64MB RAM, 10G disk, ADT 40	4,286	N/A	N/A
45218/82A	300MHz w/TeamCom, 64MB RAM, 10G disk, ADT 40 w/MICR	4,536	N/A	N/A
	TeamPoS 5000 PoS Terminal, No Keyboard/No Display package, dispersed . Includes Processor Slice with Disk and RAM, Integrated TeamCom or OPC, Cash Drawer, Ethernet 10-Base-T LAN card, ADT40 Printer w/ or w/o MICR, Cables for dispersed configuration			
45218/81C	300MHz w/TeamCom, 64MB RAM, 10G disk, ADT 40	4,301	N/A	N/A
45218/82C	300MHz w/TeamCom, 64MB RAM, 10G disk, ADT 40 w/MICR	4,551	N/A	N/A

The above items are offered at the 46%/49% Dealer discount. The higher 49% discount is offered only if an attending Keyboard and Display are ordered at the same time.

WITHDRAWN: TEAMPOS 5000 P166 NO KEYBOARD/NO DISPLAY PACKAGES

The following TeamPoS 5000 packages have been withdrawn:

PIN	Item	Price	Inst	Maint
	TeamPoS 5000 PoS Terminal, No Keyboard/No Display package, integrated . Includes Processor Slice with Disk and RAM, Integrated TeamCom or OPC, Cash Drawer, Ethernet 10-Base-T LAN card, ADT40 Printer w/ or w/o MICR, Cables for integrated configuration

Includes Pentium 166 MHz Processor Slice with 4G Disk and 32MB RAM, Integrated TeamCom, Cash Drawer, 133PQ PoS/QWERTY Keyboard, 9" Color Operator Monitor (with terminal mount base), Ethernet 10-Base-T LAN card, Cables for integrated configuration. No MSR.		See Page 5 for these prices	
45218/615	With ADT 40 1½ Station Thermal Printer (w/o MICR) and int. cable	5,175		639
45218/625	With ADT 40 1½ Station Thermal Printer (w/ MICR) and int. cable	5,425		674

WITHDRAWN: TEAMPOS 4000 CONFIGURATIONS:

For use with **ISS45**, select the configuration from the list below. Please note the following:

The following have all been withdrawn from sale.

PIN	Item	Price	Inst	Maint
PB600492	TeamPoS 4000 with 586 processor, 4MB RAM, 2.0 GB or larger hard disk drive, 93-key keyboard, monochrome LCD. Printer not included.	\$ 2,624	\$ 22	TBD
PB600493	TeamPoS 4000 with 586 processor, 4MB RAM, 2.0 GB or larger hard disk drive, 93-key keyboard, monochrome touch screen LCD. Printer not included.	2,734	22	TBD
PB600494	TeamPoS 4000 with 586 processor, 4MB RAM, 2.0 GB or larger hard disk drive, 93-key keyboard, color LCD. Printer not included.	2,906	22	TBD
PB600495	TeamPoS 4000 with 586 processor, 4MB RAM, 2.0 GB or larger hard disk drive, 93-key keyboard, color touch screen LCD. Printer not included.	3,013	22	TBD
PB600406	Flat Top Shelf	\$ 68	N/A	N/A
PB600274	Integrated Printer	678	TBD	TBD

Fujitsu-ICL RETAIL *partners* will receive the standard 46-49% discount on these items.

WITHDRAWN: TEAMPOS SELECT COLOR PACKAGES FOR ISS45:^{12 13}

PIN	Item	Price	Inst	Maint
	TeamPoS Select PoS Terminal, Color . Includes 8-port external OPC and Power Supply, Cash Drawer, 92R PoS Keyboard, 9" Color Operator Monitor, 3Com Ethernet LAN card, Cables. Does not include PC Controller/CPU.		See Page 5 for prices	
45217/113	With ADT 40 1½ Station Thermal Printer (w/o MICR) and disp. cable	\$ 3,821		N/A
45217/123	With ADT 40 1½ Station Thermal Printer (w/ MICR) and disp. cable	4,071		N/A
45217/143	With Fujitsu 2½ Station Printer and dispersed cable	3,961		N/A

WITHDRAWN: TEAMPOS SELECT MONOCHROME PACKAGES FOR ISS45:

PIN	Item	Price	Inst	Maint
	TeamPoS Select PoS Terminal, Monochrome . Includes 8-port external OPC and Power Supply, Cash Drawer, 92R PoS Keyboard, 9" Monochrome Operator Monitor, 3Com Ethernet LAN card, Cables. Does not include PC Controller/CPU.		See Page 5 for prices	
45217/111	With ADT 40 1½ Station Thermal Printer (w/o MICR) and disp. cable	\$ 3,493		N/A
45217/121	With ADT 40 1½ Station Thermal Printer (w/ MICR) and disp. cable	3,743		N/A
45217/141	With Fujitsu 2½ Station Printer and dispersed cable	3,633		N/A

WITHDRAWN: TEAMPOS SELECT NO PRINTER/NO DISPLAY PACKAGES WITH OPC FOR ISS45:

45217/137 ¹⁴	TeamPoS Select PoS Terminal, No CPU/No Printer/No Display package. Includes 8-port external OPC and Power Supply, Cash Drawer, 92R PoS Keyboard, EtherTeam LAN card, Cables.	\$ 1,988	N/A	N/A
-------------------------	---	----------	-----	-----

¹² Regarding the logic of the PINs for these TeamPoS Select configurations, know that:

- 45217 is the ISS45 Package PIN base number for TeamPoS Select
- /0xx was for controller-equipped units, /1xx is for no controller
- /x0x is Epson printer, /x1x is ADT 40, /x2x is ADT 40 with MICR, /x3x is No Printer, /x4x is Fujitsu printer
- Final digit is color/mono/PoS/Controller configuration

¹³ Due the significant customer preference for TeamPoS 5000 as opposed to TeamPoS Select, TeamPoS Select items are held at minimum inventory and it is wise to call for availability.

¹⁴ Due the significant customer preference for TeamPoS 5000 as opposed to TeamPoS Select, TeamPoS Select items are held at minimum inventory and it is necessary to call for availability.
