## ISS45 and ScanMaster Express Packages

MB-POS-1000 Issue 22

May 29, 2015

**WITHDRAWN**

Note: This issue 22 removes the Microsoft SQL database items from the ISS45 Express packages and restores the Pervasive database items to the ScanMaster Express packages. All hardware components and prices have been updated to reflect the current package content. ABO (as well as RBO) may now be ordered at the special \$995 Companion price when purchased with any Express package, and these Companion items have been added. Changes of significance from Issue 21 are highlighted in red.

NCR is very pleased to offer ISS45 Express™ and ScanMaster Express™ systems, combining outstanding POS software with NCR's hardware technology for small grocery stores with up to five POS lanes.

There are now three primary Express package types, depending upon the NCR POS platform:

- **NCR RealPOS 40 Release 2** Packages provide the base ScanMaster or ISS45 POS software with the RealPOS 40 Release 2 e-box; the NCR cash drawer (no-lock); 17" industry-standard flat-panel display for each lane; "Retalix-Branded" Mid-Tower PC for the back office with a 17" flat-panel display.
  - **The RealPOS 40 Release 2** shipped with Express is the same unit and specification as the version provided with the standard NCR-RP40-PK-02 package, with the Intel Atom D2550 Dual Core Processor, 2GB RAM, 250GB HDD and POSReady 7. Like the RealPOS 60 Release 2 below, this package is configured with the additional I/O board, providing a total of 5 P-USB ports and eliminating the need for additional external power supplies and power bricks.
- **NCR RealPOS 60 Release 2** Packages provide the base ScanMaster or ISS45 POS software with the RealPOS 60 Release 2 e-box; the NCR cash drawer (no-lock); 17" industry-standard flat-panel display for each lane; "Retalix-Branded" Mid-Tower PC for the back office with a 17" flat-panel display.
  - The RealPOS 60 Release 2 shipped with Express is the same unit and specification as the version provided with the standard NCR-RP60-PK-03 package, with the Intel Celeron G1610T Dual Core Processor, 4GB RAM, 250GB HDD and POSReady 7.
- **NCR RealPOS 82XRT** Packages provide the base ScanMaster or ISS45 POS software with the RealPOS 82XRT e-box with Pentium G850; the NCR cash drawer (no-lock) and cable; 17" industry-standard flat-panel display for each lane; "Retalix-Branded" Mid-Tower PC for the back office with a 17" flat-panel customer display.
  - The RealPOS 82XRT shipped with Express is the same unit and specifications as the version provided with the standard **NCR-RP82-PK-04** package, with 2.90GHz Pentium G850, **4GB** RAM, 500GB HDD and POSReady 7.

The NCR hardware content is identical for ISS45 and ScanMaster Express packages. The POS software and database platforms are the only differences.

Solution Providers can now accompany any new Express system with ABO or RBO (including DSD) at the special \$995 (net) Companion price. See the RBO and ABO Reference bulletins for ordering details.

Solution Providers have options to modify the standard Express hardware packages:

- A "No-PC" credit option removes the back-office PC and display from the configuration for a flat-dollar credit.

- A “No-Flat-Panel” credit option removes (as many as desired) flat-panel displays normally shipped with every lane.
- An “Add Lock” option specifies a locking cash drawer instead of the standard no-lock drawers.
- Your discount will not be affected by use of any or all of these options.

Solution Providers can choose, if needed, any listed printers and/or cashier displays and options. Purchase of a printer or cashier display is not required to retain the full NCR hardware discount.

The Pervasive database is included with all ScanMaster systems. The Pervasive license is sized and configured to match the ScanMaster controller/server and lane count, but does *not* include licenses to accommodate workstations. If you add workstations to your ScanMaster Express configuration, you must also add a Pervasive User Count Increase (“UCI”) license (PSQL-UCI-01-11) as well as a Pervasive Workgroup license (PSQL-WKG-01) for each ScanMaster workstation in the system.

Microsoft SQL Express compatibility was introduced with ISS45 8170-170 in March of 2015, removing the requirement for Microsoft SQL Workgroup Edition. Microsoft Workgroup Edition SQL licenses or CALs are no longer included with ISS45 Express.

## EXPRESS DIFFERENCES FROM THE STANDARD PRODUCT

*ScanMaster Express software* – is identical to standard ScanMaster as available separately by line item, with the App Pack configurations. There are no feature/function exceptions.

- The Pervasive database is required and included all ScanMaster Express configurations. The number of Pervasive User and Workgroup licenses provided matches the number required by the ScanMaster Express configuration. Additional User Count Increase (“UCI”) and Pervasive workgroup licenses must be ordered by the Solution Provider if a workstation will be installed.

*ISS45 Express software* – is exactly like the standard ISS45 with the following exceptions:

- No Controller Service replication: single controller service only. Shoppers can still be checked out at the POS terminals, however, because of ISS45’s 3R’s architecture, enabling POS checkout even with no controllers attached or available. Also, a software option to upgrade an ISS45 Express license to a full dual-controller ISS45 standard system is available.
- No Bonus Coupon - (available as an Express software option.)
- No Safe Accounting system - (available as an Express software option.)
- No family code coupon scanning validation - (although manufacturer code is there). To add family code validation, an Express software option is available.)
- There are no other limits on software options - fuel or self-checkout can for example be used with Express.

### *Products and Hardware in Express packages:*

- Express Software is bundled into the packages with the hardware. The price for the package includes hardware, application software and operating system software on the provided devices.
- ISS45 system packages do not include any Microsoft SQL database licenses, since Microsoft SQL Express (with no license charge) is now compatible. The Pervasive database platform for ScanMaster is now included with all ScanMaster Express packages.
- The RealPOS 40 Release 2 e-box shipped with Express is the same unit and specification as the version provided with the standard NCR-RP40-PK-02 package, with the Intel Atom D2550 Dual Core Processor, 2GB RAM, 250GB HDD and POSReady 7.

- The RealPOS 60 Release 2 e-box shipped with Express is the same unit and specification as the version provided with the NCR-RP60-PK-03 package, with the Intel Celeron G1610T Dual Core Processor, 4GB RAM, 250GB HDD and POSReady 7.
- The RealPOS 82XRT e-box shipped with Express is the same unit and specification as the version provided with the standard **NCR-RP82-PK-04** package, with 2.90GHz Pentium G850, **4GB RAM**, 500GB HDD and POSReady 7.
- The NCR heavy-duty (class 2181) cash drawer, including till insert and cable, is included with each lane. The no-lock version is standard, but Solution Providers can order the “Add-Lock” option to ship a lock-equipped version of the class 2181 drawer.
- Cashier displays, printers and scanner/scales are not included in any Express packages. These items can be ordered separately as desired to complete the system.
- An industry-standard 17-inch flat-panel display is included for each lane. (Solution Providers may use a special PIN to remove this option and receive an on-invoice credit if these monitors are not required.)
- A “Retailix-Branded” back-office PC (the currently shipping SNPC-MT model) is included, along with the current 17-inch flat-panel industry-standard monitor. (Solution Providers may use a PIN to remove this option and receive an on-invoice credit if the PC and monitor are not desired.)
- Ethernet hubs are not included in any Express configurations.
- Mounting hardware and/or display stands are not included.

## SALES APPROACHES

It's not wise to propose Express when the user would buy or be better served by the standard software and hardware systems: the user won't get quite as many features, and you won't make as much margin. But: when Express fits the grocer's needs and the competitive situation, here are a few of the points you should make:

- At the same price as the competition, your user gets an outstanding system with the same architecture rolling out in major independents and large supermarket chains. Top of the line, best-of-breed terminal hardware that lasts and lasts.
- Financing — using a lease program, a complete 3-lane system costs less per week than a part-time clerk.
- Express systems are upgradeable to a full “standard” ISS45 or ScanMaster systems and all options are available. This offers real investment protection.
- First-rate software — between ScanMaster and ISS45, more than 10,000 independent and regional chain stores have been installed. No other offering for small grocers can beat NCR's performance or success with independent grocers.
- First-rate NCR hardware. This is not a bare-bones system with junk pieces-and-parts. Express provides top-of-the-line RealPOS terminals with the Windows POSReady 7 operating system. Solution Providers have the option of the compact and low-cost RealPOS 40 Release 2 or RealPOS 60 Release 2 compact machines or the higher-end RealPOS 82XRT with the Pentium G850 CPU.
- Express packages provide the same products that your dealership focuses on, day in and day out. It's not a tactical sideline. Your people are trained and experts.

The ISS45 and ScanMaster Express packages and options are listed on the following pages.

NCR Solution Providers enjoy their NCR POS Hardware discount schedules for NCR ISS45 and ScanMaster Express packages. Your discount for Express is the same as your discount level for NCR hardware such as the RealPOS 60 and RealPOS 82XRT.

Although NCR Solution Providers will need to complete these configurations with printers, displays etc., the purchase of these additional items is not required to receive the standard discount on the Express packages. Solution Providers may also use the package hardware options (to remove the PCs etc.) without affecting the Express package discount.

Where listed, suggested maintenance prices represent the sum of standard suggested rates for the included components only. Where rates are not otherwise available for a component, a 15% default rate has been used for that item.

## ISS45 Express Options

NCR offers the following options to modify the standard Express packages. Use of these options does not affect the dealer discount for the Express packages.

NCR Solution Providers may opt to delete the standard Retalix Mid-Tower PC and Retalix 17-inch flat-panel display that is otherwise shipped standard with all Express packages.

Solution Providers may also opt to delete the standard Retalix 17-inch flat-panel display that otherwise ships with every lane. (Don't use this PIN to remove the back-office display - use the option above to do that instead.)

Solution Providers may also opt to use a locking class 2181 cash drawer instead of the standard class 2181 no-lock drawer otherwise shipped with all Express packages.

### ISS45 Express Options: Hardware Options

PIN	Description	List Price	Install Price	Maint Price
<b>EXESNOPCCR</b>	<b>StoreNext Express/Esspresso \$635 Credit — to remove 45MTPC and SNFP17 from the ISS45 or ScanMaster Express Configuration</b>	<b>(\$635)</b>		
<b>NO PC/FP</b>	Use this Express and Espresso option to remove the office PC and monitor from the shipment in cases where a configuration's SNPC-MT and SNFP17 monitor is not required. The dealer will receive an immediate credit for the Dealer Net price of this credit PIN. This option can be used with ISS45 and ScanMaster Express and Espresso configurations only.		Partner Net Price: (\$635).	
<b>PKGNOFP</b>	<b>Retalix Credit — to remove SNFP17 Flat Panel Display from a Package, Per Lane</b>	<b>(\$100)</b>		
<b>NO FP</b>	Use this PIN to remove a Flat-Panel display (such as SNFP17) from a POS, Express or Espresso terminal package. ¶-Order quantity one (1@) per lane or display. Retalix will delete ONLY the number of displays ordered for removal from the package via this option PIN. ¶-Do not use this PIN for the back-office display if using the EXESNOPCCR PIN to delete the back-office PC and flat panel display from the configuration.		Partner Net Price: (\$100).	
<b>NCR-CDLOCKOPT</b>	<b>NCR Cash Drawer Add Lock Option for RealPOS 2181 Cash Drawer, Per Drawer or Lane</b>	<b>\$20</b>		
<b>ADD LOCK</b>	This PIN provides the NCR Locking Cash Drawer (NCR-2181-3105-9090), replacing the standard no-lock drawer (NCR-2181-3106-9090) that is configured in NCR terminal and/or Express packages. ¶-Order quantity one (1@) per lane or drawer. Retalix will change/substitute ONLY the number of drawers ordered for substitution via this option PIN. ¶-Applies only to NCR hardware orders or configurations. Cannot be used with other hardware vendors or products.			

Except where noted, NCR Channel Partners will receive the standard discounts from the NCR POS hardware discount schedule on the items immediately above in this section.

## ISS45 Express Options

NCR offers several software options for ISS45 Express users. Some of these are standard software features provided with “standard” ISS45 systems but not offered with Express packages. Standard options (e.g. Electronic Payments Interfaces, Promotion Options etc.) can also be purchased. See the current version of Reference Bulletin 1000 (ISS45) or 1208 (ScanMaster) for a detailed list of all ISS45 and ScanMaster software options.

### ISS45 Express Options: Software Options

PIN	Description	List Price	Install Price	Maint Price
45180/031	<b>ISS45 Express™ Controller Service Replication Option</b> This software option available only for ISS45 Express. Other standard ISS45 options are available to be added to ISS45 Express.	<b>\$1,995</b>	<b>\$400</b>	<b>\$300</b>
45180/033	<b>ISS45 Express/Esspresso Coupon Family Code Validation Option</b> This software option available only for ISS45 Express and Espresso. Other standard ISS45 options are available to be added to ISS45 Express.	<b>\$795</b>	<b>\$200</b>	<b>\$100</b>
45180/035	<b>ISS45 Express/Esspresso Bonus Coupon Option</b> This software option available only for ISS45 Express and Espresso. Other standard ISS45 options are available to be added to ISS45 Express.	<b>\$495</b>	<b>\$200</b>	<b>\$100</b>
45180/037	<b>ISS45 Express/Esspresso Safe Accounting Option</b> This software option available only for ISS45 Express and Espresso. Other standard ISS45 options are available to be added to ISS45 Express.	<b>\$795</b>	<b>\$200</b>	<b>\$100</b>
45180/039	<b>ISS45 Express Software Upgrade to Standard ISS45</b> For ISS45 Express only — not available for ISS45 Espresso systems. Provides upgrade to full ISS45 price is regardless of 1-Lane, 2-Lane, 3-Lane, 4-Lane or 5-Lane configuration. This price does not include hardware.	<b>\$2,995</b>	<b>\$400</b>	

Except where noted, Solution Providers will receive the standard discounts from the POS Software discount schedule on the items immediately above in this section.

### ISS45 Express Options: Platform Options

PIN	Description	List Price	Install Price	Maint Price
<b>SQLW1U01L-CAL2</b>	<b>Microsoft SQL Workgroup Edition Embedded CAL for ISS45 - One (1) Required per ISS45 POS, Controller or Workstation</b>	<b>\$150</b>		<b>\$10</b>

#### SQL CAL

For new ISS45 system orders: As of 8170-170, Microsoft SQL Express is recommended. If Microsoft SQL Workgroup is desired, one (1) CAL must be ordered for each ISS45 POS lane, each ISS45 MFS1 or MFS2 Controller/File Server, and each ISS45 Workstation (LFS). One CAL is also required for each instance (device) of PocketOffice. ¶-If this Microsoft SQL Workgroup PIN is used, only the SQL CALs must be purchased: no additional Microsoft SQL components or licenses are required. ¶-Use these new ISS45 OEM Embedded CALs with the same SQL Workgroup Edition version and media that has previously been distributed by NCR and certified with ISS45. SQL Workgroup Edition does not require the Windows Server operating system, and will run on smaller operating systems such as XP Professional for example. SQL -Server- or -Standard- require a server version of the Windows operating system. ¶-These OEM Client Access licenses are embedded for the ISS45 system: purchase of the CALs provide the license only. All authorized ISS45 Channel Partners will continue to be provided the currently certified Microsoft SQL Workgroup Edition media for installation. ¶-SQL CALs are no longer provided with ISS45 Express package configurations. Channel Partners are responsible for using deploying Express or ordering the correct number of Microsoft SQL Workgroup CALs as necessary. ¶-System Add-Ons: When adding lanes, Channel Partners may convert the system to SQL Express. If the installation stays with the Workgroup Edition however, the usual Workgroup rules apply: ISS45 systems that were initially purchased before January 1, 2013 that included the previously available SQL Workgroups Unit Licenses (SQLW1U01L) do NOT need to order any new CALs when adding POS lanes, Workstations or PocketOffice licenses to the existing deployed ISS45 Systems. The new CALs WILL need to accompany the purchase of any add-on ISS45 POS lanes, MFS/Controllers, LFS/Workstations or PocketOffice licenses if the system was originally licensed AFTER December 31, 2012 and Microsoft SQL Workgroup will continue to be used in the site. ¶-Replaces withdrawn PIN SQLW1U01L-CAL  
 ▶ Partner Net Price: \$90. ◀

See Pricing Notes ▶

## ISS45 Companion Back Office Options

### ISS45 Companion Back Office Options: ABO

PIN	Description	List Price	Install Price	SMS Price
<b>NCR-G370-3624-CMPN</b>	<b>NCR ABO Advanced Back Office Store Level Application, Small Store (1-5 POS Lanes), New Companion License</b>	<b>\$3,295</b>		<b>\$468</b>
<b>SM STORE COMPANION</b>	<p>This LPIN can be used only to add ABO to POS system license orders for new ACS, ScanMaster or ISS45. Use this LPIN for companion ABO orders for sites with 1-5 lanes, and use instead PIN NCR-G370-3623-CMPN for 6+ lane stores. For stand-alone orders (without new POS license purchases) use instead NCR-G370-3624-0000, which provides the identical functions and capabilities. ¶-The ABO system is currently available for ISS45 V7/V8, ScanMaster, ACS-IR and ACS 7.0. The ISS45 V8 Advanced Promotions interface for ABO was completed in Q1 2015 and is currently available under Controlled Deployment for either store-level or ABO Central. ¶-Can be used with new POS licenses, including small store licenses ISS45 or ScanMaster Express, and system migrations among ACS, ISS45 and ScanMaster. Not valid for existing sites, license transfers, reactivations or relicenses, or in any site other than the one in which the companion POS software is installed. Not valid for special promotions or exception pricing unless expressly authorized in the promotion or exception document. ¶-The software maintenance (SWM) price quoted is the annual rate that will be invoiced to the Channel Partner by NCR for Level 3 and Level 4 support. Level 1 and Level 2 support must be provided by the Channel Partner to the end user: direct end-user support from NCR is not available for the ABO system. Channel Partners may consider multiplying the Level 3 - Level 4 SWM from NCR by 1.67 to account for the Channel Partner's own Level 1 - Level 2 services to thereby develop prices for end-to-end software maintenance and support.</p> <p>▶ Partner Net Price: \$995. See Configuration Note for additional release information. ◀</p>			
	See Pricing and Release Notes ▶			

<b>NCR-G370-3623-CMPN</b>	<b>NCR ABO Advanced Back Office Store Level Application, Large Store (6+ POS Lanes), New Companion License</b>	<b>\$4,495</b>		<b>\$468</b>
---------------------------	--	----------------	--	--------------

<b>LG STORE COMPANION</b>	<p>This LPIN can be used only to add ABO to POS system license orders for new ACS, ScanMaster or ISS45. Use this LPIN for companion ABO orders for sites with 6+ lanes, and use instead PIN NCR-G370-3624-CMPN for 1-5 lane stores. For stand-alone order that do not qualify for this special companion pricing (without new POS license purchases) use instead NCR-G370-3623-0000, which provides the identical functions and capabilities.</p> <p>▲▲ See Configuration Note for the first PIN in this section for additional configuration information.▲▲</p>	<p>Partner Net Price: \$995. NCR Solution Providers enjoy their NCR POS Hardware discount schedules for NCR ISS45 and ScanMaster Express packages. Your discount for Express is the same as your discount level for NCR hardware such as the RealPOS 60 and RealPOS 82XRT.

Although NCR Solution Providers will need to complete these configurations with printers, displays etc., the purchase of these additional items is not required to receive the standard discount on the Express packages. Solution Providers may also use the package hardware options (to remove the PCs etc.) without affecting the Express package discount.

Where listed, suggested maintenance prices represent the sum of standard suggested rates for the included components only. Where rates are not otherwise available for a component, a 15% default rate has been used for that item.

## ScanMaster Express Options

NCR offers the following options to modify the standard Express packages. Use of these options does not affect the dealer discount for the Express packages.

NCR Solution Providers may opt to delete the standard Retalix Mid-Tower PC and Retalix 17-inch flat-panel display that is otherwise shipped standard with all Express packages.

Solution Providers may also opt to delete the standard Retalix 17-inch flat-panel display that otherwise ships with every lane. (Don't use this PIN to remove the back-office display - use the option above to do that instead.)

Solution Providers may also opt to use a locking class 2181 cash drawer instead of the standard class 2181 no-lock drawer otherwise shipped with all Express packages.

### ScanMaster Express Options: Hardware Options

PIN	Description	List Price	Install Price	Maint Price
<b>EXESNOPCCR</b>	<b>StoreNext Express/Esspresso \$635 Credit — to remove 45MTPC and SNFP17 from the ISS45 or ScanMaster Express Configuration</b>	<b>(\$635)</b>		
<b>NO PC/FP</b>	Use this Express and Espresso option to remove the office PC and monitor from the shipment in cases where a configuration's SNPC-MT and SNFP17 monitor is not required. The dealer will receive an immediate credit for the Dealer Net price of this credit PIN. This option can be used with ISS45 and ScanMaster Express and Espresso configurations only.		Partner Net Price: (\$635).	
<b>PKGNOFP</b>	<b>Retalix Credit — to remove SNFP17 Flat Panel Display from a Package, Per Lane</b>	<b>(\$100)</b>		
<b>NO FP</b>	Use this PIN to remove a Flat-Panel display (such as SNFP17) from a POS, Express or Espresso terminal package. ¶-Order quantity one (1@) per lane or display. Retalix will delete ONLY the number of displays ordered for removal from the package via this option PIN. ¶-Do not use this PIN for the back-office display if using the EXESNOPCCR PIN to delete the back-office PC and flat panel display from the configuration.		Partner Net Price: (\$100).	
<b>NCR-CDLOCKOPT</b>	<b>NCR Cash Drawer Add Lock Option for RealPOS 2181 Cash Drawer, Per Drawer or Lane</b>	<b>\$20</b>		
<b>ADD LOCK</b>	This PIN provides the NCR Locking Cash Drawer (NCR-2181-3105-9090), replacing the standard no-lock drawer (NCR-2181-3106-9090) that is configured in NCR terminal and/or Express packages. ¶-Order quantity one (1@) per lane or drawer. Retalix will change/substitute ONLY the number of drawers ordered for substitution via this option PIN. ¶-Applies only to NCR hardware orders or configurations. Cannot be used with other hardware vendors or products.			

Except where noted, NCR Channel Partners will receive the standard discounts from the NCR POS hardware discount schedule on the items immediately above in this section.

## Pervasive Database Platform

### Pervasive Database Platform: User Count Increase License

PIN	Description	List Price	Install Price	Maint Price
-----	-------------	------------	---------------	-------------

**PSQL-UCI-01-11 — Pervasive User License, User Count Increase, Pervasive PSQL V11, Add 01 User** **\$150**

**01-USER  
UCI**

Pervasive PSQL User Count Increase (UCI) license. Use UCIs to augment the user count from a Pervasive PSQL Base license. ¶-For example, to cover a requirement for eight (8) users, a 5-User Base license can be combined with a 3-User UCI to provide the necessary 8-User capacity at a lower cost than purchasing a 10-User Base license. ¶-Unless the PSQL license in the store is already sized for a larger user count than the currently installed ScanMaster system, a UCI license will be required to cover any additional ScanMaster POS lane licenses added to that ScanMaster system. ¶-NOTE! User Count Increase licenses cannot be upgraded to new PSQL versions in the future. PSQL Upgrades are ONLY available for PSQL Base licenses. The cost savings from combining Base + UCI licenses at initial purchase may therefore be lost if future PSQL upgrades are anticipated. ¶-Replaces withdrawn PIN SMPSL01-ADD

Partner Net Price: \$113.

### Pervasive Database Platform: Workgroup License

PIN	Description	List Price	Install Price	Maint Price
-----	-------------	------------	---------------	-------------

**PSQL-WKG-01 Pervasive Workgroup License, One Required per POS or Self-Checkout Lane and Workstation** **\$50**

**WORKGRP**

Pervasive PSQL Workgroup license. One (1) Workgroup license is required for each ScanMaster POS and self-checkout lane, plus one (1) for each ScanMaster workstation. A Workgroup license is NOT required for the ScanMaster server/controller. ¶-For example, a store with five (7) POS lanes, four (4) self-checkout lanes and one (1) workstation would require twelve (7+4+1=12) Workgroup licenses. ¶-This PIN can be used for all Pervasive PSQL release versions (v8.x, 9.5, 10.x, 11 etc.). ¶-NOTE! PSQL Workgroup licenses are not upgradable. All Workgroup licenses in the PSQL system must be repurchased when PSQL is upgraded to a new major release. ¶-Replaces withdrawn PIN SMPCL

Partner Net Price: \$30.

Except where noted, Solution Providers will receive the standard discounts from the Platform discount schedule on the items immediately above in this section.

## ScanMaster Companion Back Office Options

### ScanMaster Companion Back Office Options: ABO

PIN	Description	List Price	Install Price	SMS Price
<b>NCR-G370-3624-CMPN</b>	<b>NCR ABO Advanced Back Office Store Level Application, Small Store (1-5 POS Lanes), New Companion License</b>	<b>\$3,295</b>		<b>\$468</b>
<b>SM STORE COMPANION</b>	<p>This LPIN can be used only to add ABO to POS system license orders for new ACS, ScanMaster or ISS45. Use this LPIN for companion ABO orders for sites with 1-5 lanes, and use instead PIN NCR-G370-3623-CMPN for 6+ lane stores. For stand-alone orders (without new POS license purchases) use instead NCR-G370-3624-0000, which provides the identical functions and capabilities. ¶-The ABO system is currently available for ISS45 V7/V8, ScanMaster, ACS-IR and ACS 7.0. The ISS45 V8 Advanced Promotions interface for ABO was completed in Q1 2015 and is currently available under Controlled Deployment for either store-level or ABO Central. ¶-Can be used with new POS licenses, including small store licenses ISS45 or ScanMaster Express, and system migrations among ACS, ISS45 and ScanMaster. Not valid for existing sites, license transfers, reactivations or relicenses, or in any site other than the one in which the companion POS software is installed. Not valid for special promotions or exception pricing unless expressly authorized in the promotion or exception document. ¶-The software maintenance (SWM) price quoted is the annual rate that will be invoiced to the Channel Partner by NCR for Level 3 and Level 4 support. Level 1 and Level 2 support must be provided by the Channel Partner to the end user: direct end-user support from NCR is not available for the ABO system. Channel Partners may consider multiplying the Level 3 - Level 4 SWM from NCR by 1.67 to account for the Channel Partner's own Level 1 - Level 2 services to thereby develop prices for end-to-end software maintenance and support.</p> <p>▶ Partner Net Price: \$995. See Configuration Note for additional release information. ◀</p>			
	<a href="#">See Pricing and Release Notes ▶</a>			

<b>NCR-G370-3623-CMPN</b>	<b>NCR ABO Advanced Back Office Store Level Application, Large Store (6+ POS Lanes), New Companion License</b>	<b>\$4,495</b>		<b>\$468</b>
---------------------------	--	----------------	--	--------------

<b>LG STORE COMPANION</b>	<p>This LPIN can be used only to add ABO to POS system license orders for new ACS, ScanMaster or ISS45. Use this LPIN for companion ABO orders for sites with 6+ lanes, and use instead PIN NCR-G370-3624-CMPN for 1-5 lane stores. For stand-alone order that do not qualify for this special companion pricing (without new POS license purchases) use instead NCR-G370-3623-0000, which provides the identical functions and capabilities.</p> <p>▲▲ See Configuration Note for the first PIN in this section for additional configuration information.▲▲</p>		<p>Partner Net Price: \$995. See Configuration Note for additional release information.</p>
