IBM (Toshiba TEC) POS Hardware Platforms Configuration and Pricing

MB-POS-1224 Issue 12

June 14, 2016

This Issue 12 adds the new SurePOS E6A configuration and updates all configurations, products and part numbers. All SurePOS 300 E4x, SurePOS 500 and SurePOS 700 packages have now been withdrawn, although some accessories may remain available – see the release note information with each listing for details. All IBM/Toshiba TEC items are now discounted to Dealer Net prices, and percentage discounts do not apply to any of these offerings. Prices have changed, including significant reductions in some packages. All previous StoreNext PINs have been changed to NCR product ID numbers, which are now required for all purchase orders to NCR. Previous Logic Unit packages including cash drawers, displays, printers etc. that were ordered with a single StoreNext PIN are now ordered using two or more peripheral component packages – for example, to order the StoreNext “45SP350-XT-E” configuration, Channel Partners now order two items, 7952-0362-9906 and 7952-0383-9906. Changes of significance and new items are highlighted in red.

The following pages provide configuration and pricing information for the Toshiba TEC (IBM) SurePOS hardware platforms.

Channel Partners must be registered in the ISR program to purchase the hardware. To provide warranty services, Channel Partners must be certified with Toshiba TEC to service the equipment via on-line courses provided by the vendor.

Please see the Program Bulletin 1223 for information and details about the Toshiba TEC program.

Configuration and Pricing

Toshiba TEC (IBM) Hardware

Channel Partners who are registered in the ISR Program for Toshiba TEC (IBM) hardware may order the following products and options.

POS software must be ordered with the SurePOS hardware under the ISR program. If the hardware will be used for existing ScanMaster or ISS45 installations, at least one ISS45 or ScanMaster software option must appear on the same P.O. (note that a special "IBM Option" is available immediately below if you need a low-cost option). See the current ScanMaster(MB-1208) or ISS45 (MB-1000) Reference Bulletins for details.

Please be aware of the warranty options and requirements for these products. Also, for the warranty to initialize, the installation must be reported immediately. Channel Partners must be certified by Toshiba TEC / IBM (via the on-line training courses) to service the equipment or receive warranty parts and services from the vendor

Please see the IBM/Toshiba TEC Program Reference Bulletin 1223 for explanations and full details.

Channel Partners will enjoy the Dealer Net pricing for these products. The IBM/Toshiba TEC items no longer use standard hardware discount percentages, and instead are provided at the prices indicated for each product.

Toshiba TEC (IBM) Hardware: POS Software Requirements

PIN	Description	List Price	Install Price	Maint Price
G330-0049-0000	— ISS45 IBM Terminal Platform Option (V7/V8)	\$95		
ISS45 IBM PLATFORM	This item was previously listed as StoreNext PIN: 45180/090. ¶-Must be included on all orders for IBM terminals to be used with ISS45 where ISS45 software is not being ordered (for example, hardware upgrades for existing stores). Not required for Express or Espresso orders or where ISS45 software licenses of any kind are being ordered with the hardware. When required, order 1 @ per store. ¶-Not required when Connected Payments, Connected Services or other subscription services are being ordered with the IBM hardware. Note the Key Replacement services cannot be recognized as a software purchase.			
G330-0099-0000	— ScanMaster Option, IBM Terminal Platform (V2 Only)	\$95		
SM IBM PLATFORM	This item was previously listed as StoreNext PIN: SM45180/090. ¶-Must be included on all orders for IBM terminals to be used with ScanMaster where ScanMaster software is not being ordered (for example, hardware upgrades for existing stores). Not required for Express or Espresso orders or where ScanMaster software licenses of any kind are being ordered with the hardware. When required, order 1 @ per store. ¶-Not required when Connected Payments, Connected Services or other subscription services are being ordered with the IBM hardware. Note the Key Replacement services cannot be recognized as a software purchase.			

SurePOS 350 Packages

Packages may now require simultaneous ordering of two or more line items to complete the package. For example, a Logic Unit/Cash Drawer package item plus a Touch Display package item may be required to complete the full-lane package.

Where indicated, some of the package items below REQUIRE an additional package item: they must appear simultaneously in equal quantities on the Channel Partner PO for the order to be accepted.

For example, to order the StoreNext “45SP350-XT-E” configuration, which provided the SurePOS 350 E5A, Cash Drawer and Touch Display, Channel Partners now order two items, 7952-0362-9906 and 7952-0383-9906. Each of those two items must appear on the P.O. in equal quantity.

SurePOS 350 Packages: with E5A LU, Cash Drawer, IR Display PIN	Description	List Price	Install Price	Maint Price

SurePOS POS Operating Systems

See the MICROSOFT PLATFORM RULES section in the section of this bulletin immediately above.

Please note that some of the products in this table may be obsolete or withdrawn without notice from the vendor, and are therefore provided here for reference only. Please contact Order Entry for availability.

Almost all POS terminals from NCR/Retalix embed Windows POSReady 7 when shipped. These operating systems cannot be licensed separately from the hardware, but media-only updates may be available for licensed terminals and published below. Upgrades (not updates) of embedded Microsoft operating systems will be available ONLY from Microsoft directly starting in the first half of 2014. See the bulletin regarding this change.

SurePOS POS Operating Systems: Field Upgrades

PIN	Description	List Price	Install Price	Maint Price
IBM-TGC-40N7494	IBM POSReady 7 Field Upgrade for SurePOS 300 4810 Type E4x POS Terminals from Previous Embedded Operating Systems	\$220		
POSReady 7	<p>For field upgrades of IBM SurePOS 300 4810 E4x systems only. This product licenses upgrades to previous embedded POS operating system (such as WePOS, POSReady 2009 etc.) to POSReady 7 on E4x machines. ¶-This product cannot be used with new hardware or with hardware that was not previously licensed with an embedded operating system from IBM.</p> <p>¶¶-For operating system upgrades, a Approval Code is required from IBM/Toshiba TEC before IBM/Toshiba will accept the order. Follow this process:</p> <ol style="list-style-type: none"> The Channel Partner must create a Field Upgrade Machine List with the following information provided for each license to be purchased: <ul style="list-style-type: none"> - End User (Corporate/Business) Name - Complete IBM/Toshiba machine model and type codes from each machine's serial number plate - Serial number of the machine Send the purchase order to Order Entry, attaching the Field Upgrade Machine List. The Field Upgrade Machine List will be forwarded to IBM/Toshiba TEC with an Approval Code request. When the Approval Code and information is returned from IBM/Toshiba TEC, Order Entry will seek any required corrections from the Channel Partner, based on IBM/Toshiba TEC's response. Upon resolution of any issues, Order Entry will place the order with IBM/Toshiba TEC for all approved machines. The order will be fulfilled by IBM/Toshiba TEC, and licenses and/or COA stickers will be provided to the Channel Partner for each approved machine. Operating System images are specific to each IBM/Toshiba TEC machine model and type. Once the license order is fulfilled, the necessary operating system images can be downloaded by the Channel Partner via an IBM/Toshiba TEC FTP link. <p>¶¶-Replaces withdrawn item IBM-8Q3240</p> <p>Pricing, Release & Partner Net Price: \$126. Withdrawn: No NCR P/N available. Use substitute item or contact Channel Products at NCR. Not supported but there are no and Compatibility known ISS45 or ScanMaster problems with this item. There are no plans to Certify this item with ACS: ACS support not available. The POSReady 7 operating Notes system is Certified with other hardware, but will not be certified with legacy IBM POS. ◀</p>
