

Product Bulletin

BLUE MOCHA — Espresso Packages with IBM

MB-POS-1225 Issue 3a
January 20, 2011

Note: this Issue 3a (draft already) lowers pricing and corrects configurations of the packages using the SurePOS 500. Issue 3 updated the ISS45 and ScanMaster Blue Mocha configurations pricing and clarified configurations. This bulletin provides information on the IBM-based Blue Mocha configurations only — for Espresso configurations with Fujitsu IBMPOS terminals, see Bulletin 1200. Changes of significance from Issue 2 are highlighted in red.

StoreNext is pleased to offer “Blue Mocha” Espresso packages for ScanMaster and ISS45. These packages are available immediately to qualified dealers registered in the IBM ISR program with StoreNext.

There are six types of packages, with the POS hardware configurations exactly matching the six configurations of the SurePOS 300 and 500 terminals available from StoreNext (see MB 1224).

1. SurePOS 300 E4A with single-station printer, keyboard and industry-standard 15” flat-panel SVGA monitor. ***This is the lowest-cost configuration StoreNext has ever offered.***
2. SurePOS 300 E4A with 4610-1NA single-station printer and IBM 15” IR touch screen
3. SurePOS 300 E4A with 4610-2CR multi-station printer, keyboard and industry-standard 15” flat-panel SVGA monitor
4. SurePOS 300 E4A with 4610-2CR multi-station printer and IBM 15” IR touch screen
5. SurePOS 500 all-in-one terminal with 4610-1NA single-station printer, integrated 12” dual-bulb resistive touch screen and 2x20 shopper VF display. ***This is the lowest-cost configuration with touch that StoreNext has offered.***
6. SurePOS 500 all-in-one terminal with 4610-2CR multi-station printer, integrated 12” dual-bulb resistive touch screen and 2x20 shopper VF display.

The ScanMaster or ISS45 Espresso POS software is included as per the standard Espresso software configurations. All Blue Mocha Espresso configurations include the office PC (45MTPC) and 17” (SNFP17) flat-panel monitor, SQL Workstation (for ISS45, one unit) or the Pervasive database (ScanMaster).

Each configuration is offered for 1-5 lanes.

The IBM SurePOS terminals in these packages are offered with the same one-year warranty conditions as listed for the same terminal configurations in bulletin 1224. The one-year depot warranty is the only warranty provided or available with these Blue Mocha configurations.

The following pages list the configurations and prices of the packages and options:

- ISS45 Blue Mocha Espresso packages and options (pages 2 - 8)
- ScanMaster Blue Mocha Espresso packages (pages 9 - 15)

ISS45 Espresso Options and Platforms

StoreNext offers a set of special software options for ISS45 and ScanMaster Espresso users. Some of these are standard software features with “standard” systems but not offered with Express or Espresso packages. Standard options (e.g. Electronic Payments Interfaces, Promotion Options etc.) can also be purchased. See MB 1000 or MB 1208 for a detailed list of ISS45 and ScanMaster software options respectively.

ISS45 Espresso Options and Platforms: Options

PIN	Description	List Price	Install Price	Maint. Price

ScanMaster Espresso Options and Platforms

StoreNext offers a set of special software options for ISS45 and ScanMaster Espresso users. Some of these are standard software features with “standard” systems but not offered with Express or Espresso packages. Standard options (e.g. Electronic Payments Interfaces, Promotion Options etc.) can also be purchased. See MB 1000 or MB 1208 for a detailed list of ISS45 and ScanMaster software options respectively.

ScanMaster Espresso Options and Platforms: Hardware Options

PIN	Description	List Price	Install Price	Maint. Price
