Neighborhood Market POS Systems

MB-POS-1227
March 13, 2009

WITHDRAWN

The following pages detail the current Neighborhood Market offerings for ISS45 and ScanMaster. These systems are released for small-store "Neighborhood Market" programs, where wholesalers are assumed be of major assistance in the sales process.

The current wholesalers participating with these systems are:

- Unified Grocers
- Nash Finch

Other wholesalers may be added over time. Neighborhood Market systems are available only in conjunction with these wholesalers - they cannot be ordered for other purposes or for members of other wholesalers.

End-user net pricing is specified in advance (see pricing pages below), which averages 22% off the list price. These net prices match published sales materials from the wholesaler. The dealer is responsible for quoting the professional services. Dealers receive their normal system discount percentage rates from StoreNext against list prices.

To Your Success,

Anthony van Seester
