

## Product Bulletin

### HP POS Hardware Platforms — Configuration and Pricing

MB-POS-1236 Issue 4a  
June 12, 2013

Note: this Issue 4a adds the L6015tm touch-screen monitor that has now been certified with ISS45 and ScanMaster. Issue 4 upgrades the HP rp5800 CPUs with 500GB disk drives and 4GB RAM for all models, and provides a 3-3-3 warranty. Other updates are provided: changes since Issue 3 are highlighted in red.

The following pages provide configuration and pricing information for the HP hardware platforms through the Retalix HP program.

Dealers must be registered in the HP program to purchase the hardware, and to provide warranty services, must be certified with HP to service the equipment via the free on-line courses.

Please see the Program Bulletin 1235 for information and details about the Retalix HP program.

# Configuration and Pricing

### HP Hardware: rp5800 CPU Options

PIN	Description	List Price	Install Price	Maint. Price
<b>HP-QP906AA</b>	<b>HP 2x Serial Port I/O, Powered, Field Upgrade Kit</b>	<b>\$20</b>		
<b>Serial I/O</b>	This card is a PCI form factor card which provides two DB9 serial ports. Each serial port can be independently configured to deliver 5 or 12 volts of power. ¶Replaces Withdrawn PIN HP-QK113AV			Dealer Net Price: \$15.
<b>HP-QP905AA</b>	<b>HP 12V 3x P-USB I/O Card, Field Upgrade Kit (Second Card)</b>	<b>\$25</b>		
<b>P-USB I/O</b>	Retalix configurations of the rp5800 are provided with 3@ 12V P-USB ports using this card in one of the two rp5800 half-height slots. This field kit adds a second panel of 3@ 12V P-USB ports in the second half-height slot. ¶Replaces Withdrawn PIN HP-QR420AV			Dealer Net Price: \$17.
<b>HP-QS208AA</b>	<b>HP 16x DVD ROM R/W (no Software), Field Upgrade Kit</b>	<b>\$89</b>		
<b>DVD ROM</b>	Use this field upgrade kit to add the DVD-RW optical drive to a rp5800 CPU. ¶Requires bezel with opening for optical drive, available separately. Order HP-QP910AA. ¶Replaces Withdrawn PIN HP-QK143AV			Dealer Net Price: \$59.
<b>HP-QP910AA</b>	<b>HP rp5800 Trim Bezel with Optical Disk Drive Opening</b>	<b>\$7</b>		
<b>Bezel</b>	When adding a DVD or optical drive (ODD) this bezel is required to replace the original flat bezel to provide an opening to accommodate the drive in the rp5800 chassis.			Dealer Net Price: \$6.
<b>HP-B4U35AA</b>	<b>HP rp5800 RAM, 2GB, DDR3-1600 DIMM Field Upgrade</b>	<b>\$56</b>		
<b>2GB RAM</b>	Compatible with rp5800. This product adds 2GB DDR3-1600 type RAM in a 2GB x 1 DIMM form factor.			Dealer Net Price: \$42.

Except where noted, Retalix Dealers will receive the standard discounts from the Retalix POS hardware discount schedule on the items immediately above in this section.

### HP Hardware: Displays

PIN	Description	List Price	Install Price	Maint. Price
<b>HP-RB146AA</b>	<b>HP L5006tm LCD 15" Touch Monitor and Cables</b>	<b>\$846</b>		
<b>LCD Touch</b>	The L5006tm monitor uses SAW (surface acoustic wave) touch technology. This is an acoustic technology that is different from traditional resistive or capacitive. There is an active grid of sound waves projected across the glass, and when the grid is interrupted by a finger this enables the touch controller to triangulate the coordinates and calculate the mouse click. This makes it very responsive and can distinguish very fast, repetitive taps/touches well. It cannot accept tap/touch input from hard objects such as credit cards, fingernails, stylus, etc. ¶The L5006tm monitor is the recommended HP monitor for front-end checkout, although other areas of the store may benefit from the different technology provided by the L5009tm touch-screen monitor. See HP-VK202AA for comparison. ¶Includes LCD monitor, VGA cable, AC power cord, documentation kit, user CD. Includes 3-3-0 (three-year depot) warranty. ¶VGA and USB cables supplied are approximately 5 ft. If longer cables are required, order HP-A505981 and HP-A507085 to provide 15 ft. lengths for the USB and VGA cables respectively. ¶Includes 3-3-0 (three-year depot) warranty.			

This document and information is supplied to RETALIX AUTHORIZED DEALERS ONLY to assist them in doing business with Retalix. It may not be used or distributed for any other purpose. Retalix endeavors to ensure that the information in this document is correct and fairly stated, but does not accept liability for any error or omission.

©Copyright 2013 Retalix, Inc.

<b>HP-VK202AA</b>	<b>HP L5009tm LCD 15" Touch Monitor and Cables</b>	<b>\$846</b>
<b>LCD Touch</b>	<p>The L5009tm monitor uses APR (acoustic pulse recognition) touch technology. This is also an acoustic technology that is different from resistive or capacitive. There are microphones embedded in the bezel of the screen, and they are "listening" for a tap sound and based on the measurements of the sound this allows the touch controller to triangulate the coordinates and calculate the mouse click. This enables tap/touch input from hard objects such as credit cards, fingernails, stylus, etc. ¶-This technology is NOT the best choice where you need to have fast, repetitive touches on the screen. The L5009tm can be tweaked to improve the input, but it is not the best recommended solution for a grocery front-end checkout environment. In this environment, cashiers are typically well-trained and experienced, and manipulate menu choices very quickly. Also, many sign-on and password sequences include a series of repeated digits. The L5009tm has difficulty distinguishing the sound of multiple taps on the glass when there is minimal elapsed time between them. The L5009tm does provide some advantages when used in store locations other than front-end checkout. Because users can interact with this type of screen with gloves, it works well in Deli, Bakery, Snack Bar and other such store areas. For front-end checkout purposes, the HP L5006tm touch-screen monitor is typically preferable: see item HP-RB146AA. ¶-Note: the L5009tm display has not been fully certified. It has been tested briefly for proper operation with ISS45 and ScanMaster with satisfactory results and no problems found. Given the electronic and interface similarity with the L5006tm, it is considered low-risk, but dealers considering this product should test to their own satisfaction since Retailix does not certify this product against any interface or other operational problems. ¶-Includes LCD monitor, VGA cable, AC power cord, documentation kit, user CD. Includes 3-3-0 (three-year depot) warranty. ¶-VGA and USB cables supplied are approximately 5 ft. If longer cables are required, order HP-A505981 and HP-A507085 to provide 15 ft. lengths for the USB and VGA cables respectively.</p>	

<b>HP-A1X78AA</b>	<b>HP L6015tm LED 15" Touch Monitor and Cables</b>	<b>\$1,241</b>
<b>LED Touch</b>	<p>Includes HP L6015tm 15-inch Retail Touch Monitor; VGA cable; DisplayPort cable; DVI-D cable; USB cable; Audio cable; Power cord. Most HP cords shipping standard are normally 6-ft. length. ¶-See the HP Height-Adjustable Stand (HP-A1X81AA) available for use with this touch-screen monitor. ¶-The HP L6015tm has been certified with ScanMaster 2.09.00-050 and ISS45 V8 8.1.6.0-60.</p>	

<b>HP-FK225AA</b>	<b>HP 2x20 Customer Pole Display</b>	<b>\$259</b>
<b>2 x 20</b>	<p>HP vacuum fluorescent display with 20 columns and 2 lines, 5x7 character matrix. Can be used directly on base with no pole, but includes pole that supports three different heights by adding extension supports included in the kit (3 pole sections of 130mm each). ¶-Includes cable (4.6 ft./1.4 m). Rectangular base included, 217mm (W) x 106mm (D) x 20 mm (H). Supports multiple command modes, with Epson command mode set as default. Supports standard USB 2.0 port - no additional power supply required. ¶-Note: this display has NOT BEEN CERTIFIED for ScanMaster or ISS45 POS systems. Please contact StoreNext if this display is required. Additional development or installation software may be required. ¶-Includes 3-3-0 (three-year depot) warranty.</p>	

<b>HP Hardware: Display Cables</b>		<b>List Price</b>	<b>Install Price</b>	<b>Maint. Price</b>

## Epson Printers

The Epson printers and accessories in this section are standard Epson products and not OEM models provided by any POS manufacturer. These Epson version printers have no special bosses, brackets or other stacking compatibility for any specific brand of POS hardware.

Epson version printers are provided in Epson colors (Epson Dark Gray, Epson Cool White and Epson Black) as opposed to the Fujitsu Black/White, HP Jack Black or IBM Iron Gray supplied with current POS terminals. Epson Black is the best match for the HP or Fujitsu blacks, while Epson Dark Gray is the best match for IBM Iron Gray. The color differences are likely to be noticeable only in stacked/integrated configurations but less visible in dispersed configurations.

The warranty on Epson printers is one year from shipment to the dealer, covering materials, workmanship to Epson specifications assuming normal use, conditions and service and excluding situations of improper shipping, installation, neglect, or damage. Dealers return the whole unit to Epson post-paid, which will repair or replace at Epson's option and ship to the dealer post-paid. When a unit is replaced, it will be with a new unit or a factory-refurbished unit in like-new condition. Exchanged or replaced units are warranted for the remaining warranty period of the original unit or 90 days, whichever is longer.

### Epson Printers: Multi-Station H6000-IV

PIN	Description	List Price	Install Price	Maint. Price
<b>EPS-C31CB25523</b>	<b>Epson H6000-IV R/S, MICR, P-USB/USB, No P/S, Epson Black</b>	<b>\$1,019</b>		
<b>Black</b>	Epson H6000-IV Receipt, Slip, Endorsement, MICR. Provides P-USB (Epson "Plus Power") and USB-B connection and Hosiden-M power/barrel type power connector. Power supply not included. ¶-This printer shipped in Epson Black, which is a close but not exact color match for Fujitsu black or HP Black.
