

PRODUCT

Epson Printer Configuration and Pricing

MB-POS-1253b

February 9, 2017

This Issue provides additional warranty information. Orders for these items must be placed with NCR Order Entry. Several items have been withdrawn and do not have an NCR Product ID number. In these cases, the Channel Partner should select an alternate configuration, or contact Channel Products or your CAM if no substitution can work. NCR will make best efforts to re-productize the item for commercially feasible volumes, but this process is likely to take additional time.

The following pages provide configuration and pricing information for the Epson Printers available through the NCR Channel Partner program.

Channel Partners must be certified with Epson to service the equipment via Epson's course offerings.

WARRANTY

The warranty on Epson printers is one year from shipment to the Channel Partner, covering materials, workmanship to Epson specifications assuming normal use, conditions and service and excluding situations of improper shipping, installation, neglect, or damage.

Channel Partners will return the whole unit to Epson post-paid, and Epson will repair or replace the unit at Epson's option and return to the Channel Partner post-paid. When a unit is replaced, it will be with a new unit or a factory-refurbished unit in like-new condition. Exchanged or replaced units are warranted for either (a) the original unit's remaining warranty period or (b) 90 days, whichever is longer.

- Channel Partners should send the printers to Epson's Indianapolis repair center.
- Warranty eligibility can be confirmed on the Epson Insider web site in the "Check Warranty Entitlement" section, and then call Epson Indianapolis for a return authorization.
- Epson's customer service number is 800-241-5743.
- Channel Partners need an Epson "account number" for this process. The current Epson address for getting account numbers is lisa.larmer@ea.epson.com.

Epson Printer Configuration and Pricing

Epson Printers

The Epson printers and accessories in this section are standard Epson products and not OEM models provided by any other POS manufacturer. These Epson version printers do not provide any unique bosses, brackets or stacking compatibilities for any specific POS hardware products.

Epson version printers are provided in Epson colors (Epson Dark Gray, Epson Cool White and Epson Black). The older Fujitsu Black/White, HP Jack Black or IBM Iron Gray supplied are not available. Epson Black is the best match for the NCR, HP or Fujitsu blacks, while Epson Dark Gray is the best match for NCR Charcoal Gray or IBM Iron Gray. Most color differences are most noticeable in stacked/integrated configurations and less visible in dispersed configurations.

Epson Printers: Multi-Station H6000-IV

PIN	Description	List Price	Install Price	Maint Price
7952-0161-9906	— Epson H6000-IV R/S, MICR, Serial/USB, No P/S, Epson Black	\$995		
Black	<p>This item was previously listed as StoreNext PIN: EPS-C31CB25521.</p> <p>¶-Epson H6000-IV Receipt, Slip, Endorsement, MICR. Provides serial/RS-232 (DB25F) and USB-B connection and Hosiden-M power/barrel type power connector. Power supply not included. ¶-This printer shipped in Epson Black, which is a close but not exact color match for Fujitsu black or HP Black. The color difference is minor but still may be noticeable in stacked/integrated configurations but less visible in dispersed configurations. ¶-Note: at this writing, StoreNext ISS45 and ScanMaster releases are supported by the Epson Model III emulation capability of this printer.</p>			<p>Partner Net Price: \$486. Certified with ISS45 and ScanMaster. Check NCR Install Documentation for ACS Certification status.</p>
