

Update Bulletin

Equinox/Hypercom L4150 EOL Calendar

April 4, 2012

Equinox has announced its end-of-life calendar for the L4150 payment terminal hardware and its FPE software.

Please see the notices attached for the dates, schedules and remaining support and availability.

April 2, 2012

Dear Valued Partner:

As part of our continued focus toward providing our customers and partners the highest level of service, quality and security, Equinox Payments wants to inform you of our plans to End of Life (EOL) the Optimum L4150 product line. This includes the L4150 Payment Terminals and Secure Keypads (both PCI PTS 1.x and 2.x certified versions), all L4000 terminal accessories (ie: cables, overlays, etc.) and the FPE32 Application suite for the Optimum L4000 product line. The pertinent product End-of-Life dates are listed below.

Final Order Date:

- Equinox will cease taking orders for all configurations of the Optimum L4150 payment terminals, L4150 Secure Keypads, all L4150 Accessories (ie: cables, overlays, etc.) after **October 1st, 2012**.
- Customers will have the opportunity to submit a final order for the product until the Final Order Date.

Final Ship Date:

- All L4150 related orders placed prior to **October 1st, 2012** will be shipped no later than **March 29th, 2013**.

End of Development Date:

- There will be no new hardware or FPE software enhancements after the final order date of **October 1st, 2012**.
- Software bug fixes will continue until the End of Service date (below).

Repair Support:

- Repair support will be available for customers for three years after the final ship date, until **March 29th, 2016**, as component availability permits, unless otherwise explicitly agreed between Equinox and its customers.
- Extended warranty plans will be honored until their expiration date.

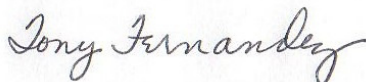

End of Service Date:

- On **March 29th, 2016**, service and repair of all configurations of the Optimum L4150 Payment Terminals (PCI PTS versions 1.3 and 2.1 inclusive), Secure Keypads, L4150 Accessories and all FPE support for the L4000 terminal line will be discontinued. Spare parts will not be guaranteed to be available after this date. Extended warranty plans will be honored until their expiration date.

Equinox recommends and encourages our customers and partners to begin an action plan to migrate your Optimum L4150 products and applications to an alternative Equinox product line. The Equinox L5300 or L5200 payment terminals provide affordable and higher performance successor products that meets today's most stringent PCI PTS 3.x security standards and also leverages the same FPE32 software application code base and interface as the Optimum L4150 payment terminals. Please contact your local sales person for additional information or visit the Equinox web-site at <http://www.equinoxpayments.com/devices>.

The POS industry is one of the fastest growing in the world. Constant improvements and advancements in technology encourage us to incorporate these changes for the benefit of our customers. As a leader in the POS industry, Equinox stands ready to assist our partners in implementing these changes. If we can assist with your migration efforts to the latest applications and terminal platforms, please contact your Equinox representative today.

Best regards and continued success,

Tony Fernandez; Vice President, Retail Product Marketing

April 2, 2012

Dear Valued Partner:

As part of our continued focus toward providing our customers and partners the highest level of service, quality and security, Equinox Payments wants to inform you of our plans to End of Life (EOL) the FPE32 Application Development Environment for the Optimum L4000 Payment Terminals. This includes FPE32 support for the Optimum L4100, L4105, L4200, L4250, L4150/PCI-1.x & 2.x terminals, L4150 Secure Keypad, as well as the P1300 and S9 series of PIN-Pads.

The specific Optimum L4000 line of FPE32 software components that are discontinued by this announcement include:

Applications & Utilities: FPE32 Terminal application, FormBuilder, FPE Loader, Hyperfont, OPOS Services, FPE Interface, JavaPOS Services & Terminal Management Services (HTMS).

Demo Projects & Source Code : FormBuilder Demo Projects & Image files, Visual Studio 6.0 Projects, OPOS Sample using Visual Studio NET 2005 and Sample EMV Level2 Screen Projects.

Drivers: RS232-to-USB Driver, P1300 Series USB Driver and Sentinel System Driver

Final Order Date:

- Equinox will cease taking orders for any new FPE32 Software Development Kits for the Optimum L4000 projects, part number 050335-005, after **October 1st, 2012**. This date is consistent with the Final Order Date for the L4150, which is the last L4000 terminal in production.

Final Ship Date:

- All FPE32 Software Development Kit orders for the Optimum L4000 platform placed prior to **October 1st, 2012** will be shipped no later than **March 29th, 2013**.

End of Development Date:

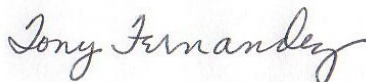

- There will be no new FPE software enhancements after the final order date of **October 1st, 2012**.
- Software bug fixes will be made until the End-of Service date specified on each of the L4000 product EOL notices. For the L4150 that date is **March 29th, 2016**.

End of Service Date:

- On **March 29th, 2016** support for FPE32 software for the L4000 product line will be discontinued.
- Additional development support beyond that date may be available on a billable basis.
- Extended warranty programs will be honored until their expiration dates.

Equinox recommends and encourages our customers and partners to begin an action plan to migrate Optimum L4000 products and FPE32 applications to the replacement L5000 line. The design of the FPE32 application environment for the L5000 terminal line is based upon its L4000 predecessor and has been specifically designed to facilitate transferring FPE application code from the L4000 to the L5000 platform. Please contact your local sales person for additional information or visit the Equinox web-site at <http://www.equinoxpayments.com/>.

Best regards and continued success,

Tony Fernandez; Vice President, Retail Product Marketing
