

## Update Bulletin

### Magellan 8500 — Special Buying Opportunity

July 26, 2010

StoreNext is able to offer an exclusive one-time special manufacturing run of Magellan 8500 scanner/scales for StoreNext dealers only. These brand new and fully warranted units from Datalogic Scanning have all the top-of-the-line features with unprecedented dealer net price of \$950 each.

#### YOU NEED TO MOVE FAST

Dealers must order by close of business *Friday, July 30*. Use the PIN on the following page.

Dealers may order as many units as desired. However, total supply, while large, is limited, and allocations are first-come/first-served. StoreNext will regardless ensure that every participating dealership receives at least some units based on their order date and their requested quantity against the total number available.

Delivery to each dealer will be in a single shipment between August 10 and August 30 based on Datalogic's manufacturing cycle and discretion. StoreNext is unable to schedule early, late or partial shipments.

#### WHY THE SPECIAL DEAL? WHERE DID THESE COME FROM?

Datalogic Scanning located a cache of the complete internal part set used to manufacture the final fall 2009 version of the Magellan 8500 scanner/scale, which was the 8500 version immediately prior to the current 8500Xt's release and production. These are being paired with the current Magellan 8500Xt chassis to create this hybrid Magellan offering.

#### CONFIGURATION

- Current Magellan 8500Xt external chassis, design and cutout
- Magellan 8500 internals (model and release immediately prior to Magellan 8500Xt)
- Sapphire glass
- Long top, Allweighs Platter
- Checkpoint (EAS not included)
- StoreNext firmware features, USA default setup
- Includes power supply (brick) and US power cord
- Interface cable is *not* included – order separately
- Standard Datalogic Scanning one-year warranty
- RoHS compliant
