## ACS 7.0 Special Pricing, 100% Upgrade Credits and Companion ABO Deal for Channel Partners

June 6, 2014

**EXPIRED**

NCR Channel Partners can get ACS 7.0 upgrades at special prices – *even free for a limited time* – for users of previous ACS-IR and ACS releases. Even better, Channel Partners can include the full ACS companion ABO back-office system at an outstanding low price.

### HERE'S THE DEAL

- **Free** – current ACS-IR or ACS 6.1 users who purchased their licenses after April 30, 2011 can upgrade to ACS 7.0 at no charge with a **100% upgrade credit** from NCR.
- **Special price** – for users who purchased ACS-IR or ACS 6.1 before that date, the ACS 7.0 upgrade is available for only \$2,195 (MRP), and full POS software discounts for NCR Channel Partners apply.
- **And now ... ABO** – can be added to any ACS 7.0 upgrade for \$995 (net price). This is not “ABO Lite” or a limited version – this ABO companion license completes a fully integrated Advanced Checkout / Advanced Back Office, including DSD and the many other ABO features normally priced at \$4,495.

### THE FINE PRINT

- **Limited time offer** – the special pricing for these ACS upgrades and the 100% Migration Credit is valid for shipments through **June 30, 2015**. This provides Channel Partners more than 12 months to complete these upgrades with maximum market power.
- **Store size** – the ACS 7.0 upgrade prices listed above apply to both large and small stores.
- **Live Stores** – the ACS or ACS-IR system being upgraded to ACS 7.0 must be operating in a live store currently on SWM. Upgrade orders for closed, inactive or de-installed sites cannot be accepted.
- **Licensed Owner** – the ACS 7.0 upgrade offer is available only for an original ACS licensee of legal record, or an operator to whom the ACS license has been formally transferred.
- **Current Channel Partner Only** – a Channel Partner may not order ACS upgrades for accounts that are currently maintained by another NCR Authorized ACS Channel Partner.
- **ABO add-on offer** – any ACS 7.0 upgrade can include the ABO companion functions at \$995 net to the Channel Partner. Fully functional store-level ABO is provided, including DSD. The small-store version will be provided for small-store sites. Central Host and other ABO options are not included. Use the ABO companion license LPINs provided below.
- **No Double-Dipping** – these ACS and ABO offers cannot be used in conjunction with any other special pricing or Exceptions for ACS or ABO software.
- **ABO SWM** – the standard ABO SWM agreement is required.
- **ACS SWM** – Channel Partners will be invoiced SWM for the upgraded sites at the established prices for ACS 7.

- **Ordering** – NCR Channel Partners can order these ACS 7.0 upgrades and ABO from Plano Order Entry, and Channel Partners may also order these items from ScanSource if desired at the same prices.
- **Proof of purchase** – all ACS upgrade orders must be accompanied by the original order information or other documentation indicating the date, licensee and order number for the ACS-IR or ACS license being upgraded.
- **Proof of SWM** – Channel Partners must indicate the site information for the current ACS-IR or ACS license indicating that the system being upgraded is currently on SWM with NCR through the Channel Partner.
- **One Site per P.O.** – order only one store site per purchase order: for example, if you order ACS upgrades for five sites, order them using five separate P.O.s.

## LPINS FOR ACS UPGRADES
