Datalogic Magellan 8500xt Close-Out Pricing

June 17, 2015

Datalogic is offering special close-out pricing for three Magellan 8500Xt configurations.

- Requires a minimum quantity of 50 units, which may be mixed/matched across the three configurations offered below.
- This offer is for Channel Partners only. Orders must be placed through Plano Order Entry.
- Orders must be placed by December 11, 2015 for shipment by December 31, 2015.
- All orders are subject to prior sale: This is a close-out offer, good while supplies last. Datalogic has limited quantities of these items, and fulfillment of orders cannot be committed until confirmation is received.
 - Plano Order Entry will place orders in first-come/first-served order, and will notify Channel Partners if all or part of an order cannot be fulfilled.
 - If the full quantity of an order cannot be fulfilled, the Channel Partner may choose either to (a) purchase the partial quantity still available at the close-out price, or (b) add other available close-out models to mix/match to achieve the 50-unit threshold.
- Orders for small quantities of these configurations will be accepted as normal at the standard currently published prices.

The three available configurations for the close-out prices are:
