15" Flat Panel Display Price "Enhancement"

March 16, 2004

As you likely know, the unbalance of supply and demand in the flat panel component business pushed up the prices of 15" flat panel products.

StoreNext's own cost for the current product has increased by \$80 over the past 90 days. Naturally, we have investigated alternate sources, but there is no stable source of supply for devices that have similar specifications, reliability and warranty (and no power brick required). As such, StoreNext has no choice but to take the extraordinary step to "enhance" the Dealer price by \$60 and the list price by \$100 for the device listed below:

PIN	Item	Price	Inst	Maint
L5EX-TA	15" Flat Panel Monitor, includes power and interface cable	\$ 598	N/A	\$ 85

Dealers enjoy a 40% discount on this product.

StoreNext will honor the previous \$498 list price on all orders currently in-house. The new price is effective immediately for all new orders. Bulletins 1047 (Platforms) and 1157 (PoS Hardware) and the StoreNext Configurer have been updated to new versions reflecting the price change.

To Your Success,

Tony
Antony van Leventer
