

## Update Bulletin

### ISS45 Education Schedule

May 9, 2004

StoreNext is pleased to offer the following courses in the coming months. See the ISS45 Course Guide (available on the [StoreNext Dealer Web Site](#)) for complete information regarding the content of these courses.

Please read the attendance and no-show policy in the Course Rules section below. These rules have changed. Also, specifically please see Dealer Policies and Procedures ET4 (Education Enrollment and Cancellation Procedures) for detailed enrollment information.

#### EDUCATION INFORMATION

- StoreNext's emphasis will be to offer sessions for newer configurations and products – such as RBO, **V8** and V7/WinPoS – and to help cover the inevitable turnover in Dealer staff with Course #9025, "Supporting and Servicing ISS45. Other courses, such as the ISS45 Customization course, may be best scheduled on an individual basis, since there are normally an insufficient number of students to justify a classroom presentation.
- StoreNext has shipped the RBO Electronic Training CD-ROM (Course #9053) to all StoreNext Dealers. This self-paced course is an ideal way to get started with RBO as well as reinforce other RBO education and training.
- StoreNext will present the RBO Web-Based Service and Support course (Course #9054) at times offered below. This 1½-day course gets Dealers going and able to sell RBO and support it under the Type I support arrangement. We expect to schedule additional sessions of this course in the near future.
- StoreNext will present the RBO Service and Support course (Course #9055) at times offered below. This is a 3-day course required for Dealer certification for Type II (full supporting Dealer) support. We expect to schedule additional sessions of this course in the near future.
- StoreNext will present the ISS45 Version 8 and Windows PoS Service and Support course (Course #9026) at times offered below. This has been expanded to a 5-day course.
- StoreNext is eager to provide Course #9051, "RBO Management Overview" in your Dealer site. Please contact [Drew Otte](#), StoreNext's RBO Business Development Specialist, to schedule this session to help you plan your strategy for success with RBO.
- Course #9024, "Selling ISS45" is not currently scheduled, but will be offered on a special basis as arranged.
- Course #9028, "Customizing ISS45" will be scheduled depending upon individual Dealer requirements.
- Course #9045, "Supporting and Servicing ISS45 Back Office Options and Frequent Shopper Express" is provided by arrangement with ACI. Call 760 942-2425 to arrange presentations of this course.
- StoreNext will conduct courses at Customer or Dealer sites given sufficient attendance and commercial arrangements. Please contact [Steve](#), [Pat](#), [Jim](#) or [Joe](#).

<sup>1</sup> See Course Rules, Page 4.

<sup>2</sup> The \$995 tuition covers attendance by two technicians from the same Dealership.

Note that attendees to #9025 or #9026 *must* ship their TeamPoS terminal (not counting the Cash Drawer) and PC box plus LAN hubs and hardware to the course. It can be shipped in advance or brought with the student. This way, your system after the course will be fully configured with up-level software. StoreNext will ship back to your site via 3-day air at no charge to the Dealer. A similar requirement (PC/Server only) exists for RBO course #9055.

The ISS45 Service and Support courses are of critical importance to personnel planning to install ISS45 systems. Where possible, StoreNext will send a Systems Engineer for one or two days at no charge to assist and advise Dealers installing their first ISS45 system – this service is offered as a courtesy. StoreNext will, however, charge full expenses and day rates for such a visit to Dealers who do *not* have a support person on staff at time of the installation who has attended this course.

## COURSE RULES

ISS45 courses run with the following guidelines:

- Course positions are assigned on a first-come, first-served basis.
- If a Dealer wishes to send more than one person to any given class, a first-come first-served waiting list will be generated. These second (or even third attendees) will be accommodated if all requests for at least one student can be honored for all other Dealers, and additional space remains. This judgment will be made two weeks from the start date.
- Course attendance will be evaluated two weeks from the start date. If there is an insufficient number attending the course, the course may be canceled at StoreNext's discretion. For a classroom course, StoreNext normally requires at least four attendees.
- All StoreNext courses are chargeable at the above-published prices. None are included with "start-up" or other kits. Purchase Orders from the Dealer must be received prior to locking a course position. (See Dealer Policies and Procedures ET4, Education Enrollment and Cancellation Procedures.)
- No-shows and cancellations in the last two weeks will be invoiced as if they had attended. The attendee will be able to attend a future session at no charge.
- Courses typically run from 8:30 to 5:00. All attempts will be made to complete courses by 3:00 PM on the final day to allow for most convenient travel arrangements.
- Typical dress for all courses is "Business Casual."

The charts below provide location, hotel and transportation information for course attendees.

LOCATIONS

For the Dayton, Sunnyvale and Chicago area courses, the following information may be useful:

Information	Dayton	Sunnyvale	Chicago Area
<b>Course Locations</b>	Retalix Dayton Center 2490 Technical Drive Miamisburg, OH 45342 (800) 533-2277  <a href="#">Click for map</a>	Fujitsu Sunnyvale Center Training Center 1250 East Arques Avenue Sunnyvale, CA 94085-3470 (408) 737-5450  <a href="#">Click for map</a>	StoreNext Retail Technologies 1821 Walden Office Square Suite 220 Schaumburg, IL 60173 (847) 397-6240  <a href="#">Click for map</a>
