

## Update Bulletin

### TeamPoS 3000 Launch Special

May 20, 2007

StoreNext is pleased to release the formal pricing and configuration bulletins for the TeamPoS 3000. All the pricing is provided in a new Pricing and Configuration Bulletin 1220.

To help dealers get started with the TeamPoS, StoreNext is making a limited-time offer for demonstration and lab kits – and you determine your own configurations – see this TeamPoS 3000 Launch Special below. The new TeamPoS 3000 releases include these products:

- The *TeamPoS 3000 XE* is a new low-priced but high-powered POS terminal with 2.93GHz CPU and lots of ports and flexibility. It's priced about 14% below the former TeamPoS 2000 S-Class. See Product Bulletin 1218 for the details.
- The *TeamPoS 3000 XL* is Fujitsu's new flagship POS terminal, featuring more horsepower, flexibility, features and a design so advanced that you can replace major components from the front without even unplugging or unstacking the peripherals. And the list pricing is down \$200 from similar TeamPoS 2000 models. See Product Bulletin 1219.
- The *TeamPoS 3000 VF60* 2x20 shopper display raises the bar two or three notches for vacuum fluorescent displays at a very low \$125 list price. If you didn't think a 2x20 could look sophisticated, think again – this is a superb match when using cashier touch screens in small stores with limited space, or where you just want to save money. See Bulletin 1217.
- The *TeamPoS 3000 D22/D25* flat-panel displays were released recently, and an updated bulletin provides power cabling that eliminates the need for an external power supply when used with a TeamPoS 2000 "M" or "A" terminal. Bulletin 1216.

#### TEAMPOS 3000 LAUNCH SPECIAL

- For your demo systems and labs – **get 60% off** list price any TeamPoS 3000 terminal package. Your choice of processor speed, options, powered USB or Combo/Legacy versions, get 'em in black or white, or choose a TeamPoS 300 XE. Limit four (4).
- Then get **50% off** list price on a selection of Epson and TPG printers, D22/D25 and VF60 displays, and all the cables and mounting hardware you need to complete your demo or lab terminal setup. Limit four (4) printers and eight (8) displays.
- You **must use** the special [Order Sheet](#) – click to get this Excel file from the Web site. Items available with this Launch Special are limited to the specific items listed on the sheet.
- This is a one-time, limited-time offer – all orders must be in-house to StoreNext by **Friday, June 8, 2007** and be specified for shipping by June 15. Limit one order per dealer.

To Your Success,

---
