

Announcement

Mobile POS Configuration for ENCOR with DLI

May 22, 2019

A mobile POS configuration has been certified with ENCOR 1.0.1.3 using the DLI-8 and DLI-10 configurations and components listed below. These items are not available for sale from NCR, but should be sourced from their respective manufacturers and distributors.

NCR expects to release updated mobile POS configurations in the future that will be certified and provided by NCR directly.

Channel partners may choose and configure different products than the items listed below, but as with all non-certified items, Level 3 and Level 4 support are available only in the context of the certified solutions. So for example if a Channel Partner has an issue with a non-certified combination, NCR will attempt to address the problem once the Channel Partner has established that the same problem appears on the certified configuration.

Items on this product list are divided by vendor, with items sourced from DLI, Verifone and Bixolon (or their respective distributors).

DLI ITEMS:

Select the DLI-10 or DLI-8 below. These items are available from DLI/Comark, using the DLI part numbers listed below. Prices will be supplied by this vendor.

- Contact Jason Coffin (jcoffin@comarkcorp.com)
