

## Update Bulletin

### WinEPS and ScanMaster Upgrade Pricing Changes

October 1, 2005

As previously announced, the pricing for WinEPS and ScanMaster V2 upgrades has changed as of October 1, 2005.

#### WINEPS

The new dealer price for WinEPS is \$1,000. The list price remains at \$2,495, offering all StoreNext dealers a 60% discount. See the updated [WinEPS Reference Bulletin](#).

This new dealer price is consistent with the pricing for WinEPS/OpenEPS in other markets. The pricing for non-StoreNext dealers was changed several months ago, but MTXEPS was kind enough to hold the lower price for StoreNext dealers for the first few months.

#### SCANMASTER V1→V2 UPGRADES

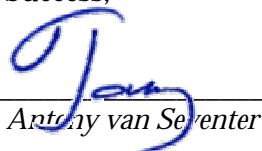

ScanMaster V1 users may still upgrade to StoreNext's ScanMaster V1 versions at no charge, and ScanMaster V2 users may still upgrade to StoreNext's ScanMaster V2 versions at no charge. These upgrades must be ordered from StoreNext, however, to enable the proper software-protection keys to be generated and shipped to the dealer to enable installation.

ScanMaster V1 (any licensed version) upgrades to StoreNext ScanMaster V2 are priced at \$2,195 as of October 1. Pervasive database licenses will need to be purchased for the V2 software. See the [ScanMaster Reference Bulletin](#).

These products are discountable to StoreNext dealers on the Software Discount Schedule. Discounts available on software-only orders are limited via policy. See your Policy and Procedures Manual or your StoreNext representative.
