

Update Bulletin

ISS45 Accounts Receivable Withdrawal

September 25, 2006

The ISS45 Accounts Receivable option (A/R, In-House Charges) and all related products will be withdrawn from sale as of **October 17, 2006**. After that date, no orders for these products can be accepted or shipped by StoreNext.

Please ensure that any orders for this are entered with StoreNext Order Entry as soon as possible – with at least one week of lead time prior to October 17.

StoreNext will not be able to offer downloads, documentation or any other kind of support after October 17. If you want copies of these documents or updated software to support your installed base, it will be essential for you to download these products before that date. StoreNext will not have backup copies or files available. If you have customers using A/R the latest version is highly recommended and you should access this product and its documentation while it is still available from the StoreNext Dealer Support Web site.

- A/R Software can be found by going to the Software Support menu (or the “Support” icon in the upper right) and then specifying ISS45 Accounts Receivable.
- A/R Documentation can be found on the ISS45 Manuals Page along with the rest of the ISS45 software manuals.

The OEM vendor of this software, ACI, will continue support of the product independently from StoreNext. ACI has expressed that their preference will be to provide support directly to the user. For arranging continued support of A/R and related products, please contact ACI directly at 760-942-2425 or aci-glen@worldnet.att.net.

To Your Success,

Antony van Seventer
