

ScanMaster from StoreNext

The ScanMaster you always wanted,
The commitment you always needed.

The Real Thing, only from StoreNext Dealers

— with more than 300 new features and capabilities in the finest ScanMaster yet.

Designed exclusively for the independent grocer and regional chain, ScanMaster® has long been one of the most powerful and dynamic POS systems. And StoreNext is keeping it that way with ScanMaster 2.8 — our latest ScanMaster release.

It provides the smooth operation and ground-breaking capabilities you need to compete in today's grocery business, and does it with striking new graphics and easy-to-learn cashier operation.

Of course, ScanMaster from StoreNext is ideal for reducing or eliminating PCI cost. But ScanMaster also brings you dozens of new features that are simply unavailable on the old “capped” NCR ScanMaster — and it brings them to you today on the proven ScanMaster system you already trust.

- **Full Connected Payments integration** — Our new engine opens the entire scope of electronic payments, including signature capture, electronic check conversion, vendor gift cards, and FSA payments. And since ScanMaster no longer stores, touches or even “sees” bank card data, you and your shoppers get the absolute maximum in security. WIC EBT too!
- **Automated End-of-Day** — ScanMaster End-of-Day Processing can now execute

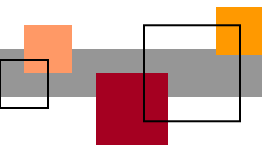

automatically at a designated time of day — even different times for different days. Full controls, parameters, schedulers, status notifications and logs are included. You can even choose automatic final deposits and reconciliation at EOD.

- **LaneHawk** — with a quick ROI of just a few months, this cutting-edge technology prevents bottom-of-basket losses and fully automates checkout of large items.
- **PocketOffice** — your staff can now monitor cashiers, audit aisles, and check your flash sales and cashier productivity from anywhere in the store. Now with Q-Buster™ and remote manager authorization, handling all POS exceptions.
- **Full Touch-Screen control** — only StoreNext's ScanMaster gives you the low cost, easy training, fast operation, reliability, lower maintenance and flexibility of touch screens.
- **Full FSA and HRA support** — customers with health care cards will get the full reimbursement value, and you'll get their business: fast, automated acceptance includes automated item recognition and electronic payments management.
- **DataBar coupons** — the latest in couponing is yours, with ScanMaster now already supporting the new extended DataBar formats.
- **WIC Fruits & Vegetables** — ScanMaster fully supports the new USDA Cash Value Voucher standards, no matter which CVV options your state or local authorities have put in place. (CONTINUED...)

- 
- **Driver's License and ID Scanning for Authentication** – reduce your liability for under-age purchases.
 - **Shopper Picture ID** – give your shoppers – and your stores – the security of positive identification. Shopper photos appear on the checker screen to confirm check tendering, check cashing and in-store charge transactions.
 - **U-Scan** – ScanMaster's full integration enables the shopper service advantages, shrink reduction and operational savings of self-checkout.
 - **Blackhawk Gift Cards** – now you can offer 100 major gift card brands, including Starbucks, Circuit City and even Major League Baseball – with little or no inventory cost.
 - **Home Delivery** – enables customers to shop your store and have their groceries delivered to their homes.
 - **Magazine Barcode Support** – ScanMaster now supports magazine scanning and storage of magazine barcodes.
 - **Pick-20** – new "bundle promotions" can include up to 20 items in special discount packages.
 - **Phone Number Lookup** – now available on the PIN pad or from the Universal Coupon/Merchandising system!
 - **Cashier Messaging** – gives special messages to the cashier at tender time.
 - **Electronic Shelf Labels** – Pricer® ESL is also interfaced to ScanMaster. Ask your StoreNext dealer how you can join the independent grocers already enjoying the smooth operations and lower costs from this outstanding system.
 - **SIL Mapping** – ScanMaster can now map any standard SIL field to a supported ScanMaster SIL field. A simple rightside/leftside onscreen tool makes setup a snap and enables outstanding flexibility in meeting wholesaler SIL formats and data enhancements.
 - **Receipt Enhancements** – ScanMaster has added dozens! Green receipts optimize paper savings, and new receipt features enhance your shopper experience, including automated return receipts with returned or refunded items. Configurable "You-Saved" text description? No Problem! Need a duplicate receipt? Easy!
 - **Gift Card Re-charge and Auto-Activation** – now ScanMaster gives your shoppers convenience by updating their in-house gift cards instead of leaving multiple cards with small remainders or forcing new cards.
 - **Multimedia by Lane** – with ScanMaster's upgraded Multimedia Maintenance system controls in-lane shopper display logos, images and movies based on selected lanes, plus time-of-day and day-of-week control. You control the sequence, and reports by lane enable easy billings.
 - **Enhanced Price Management** – even handles multiple permanent batches with smart application.
 - **Upgraded YOU Technology (S&H GreenPoints) Support:**
 - ◆ Auto-redeem free-item points or discounts – the four-digit lookup code enters automatically, reducing clerk labor and errors while providing better shopper service.
 - ◆ Financial receipts now print on ScanMaster's printer.
 - ◆ BuyCheck check-processing is now supported.
 - ◆ Handles gift card activation/balance inquiries.
 - **20-Digit Promotion Codes** – displaying in both the Item and Electronic Promotion screens, this new code gives you an improved promotion management tool to link items to electronic coupon promotions, with \$, % and @ - price offers. One code can link multiple items too.
 - **Electronic Journal Date-Spanning** – this exclusive new capability enables stores to select date-and-time controls and study item movement across the time span desired. These reports can further be provided in Acrobat® (PDF), Microsoft Excel®, Microsoft Word®, RTF and CSV formats.
 - **SRR Enhancements** – ScanMaster's Store Reconciliation Reporting system has been even further enhanced:
 - ◆ A sales percentage data column has been added reflecting the group sales percentages of total store sales.
 - ◆ Average sale amount is now available as a totalizer for the Memo Section of the SRR. This is the same number that will appear on the Store Totals Report.
 - ◆ A new parameter allows stores to control the printing order of receipts and paid-outs.
 - ◆ New totalizers for 3 tax-exempt and 3 tax-exempt food stamp sales totals are now provided.
 - **Expired Coupon Clearing** – this new application automatically deletes the expired coupons during end-of-day processing.
 - **Line Item Discount Accounting** – stores can now add these discounts back into sales figures for accounting purposes.
 - **Register Control File Enhancements:**
 - ◆ Coupons now controlled for amount or total order amount compared to the value of the items purchased.
 - ◆ Enabling discounts by type (1/2/4/5) will reduce the transaction level discountable totals.
 - ◆ Enabling discounts by manufacturer or store coupon, including doubled/multiple coupons, reduces the discountable totals by the coupon levels applied.
 - ◆ Gift card re-charge is now possible.
 - ◆ S&H point redemptions are supported, and xiNETix EFT merchant IDs can print on receipts and signature slips.
 - **New Balancing Equations** – many balancing equations have been enhanced, encompassing new software features. These include upgrades of the Individual Cashier Reports, SRR, and Back Office Control files for Cashier Reporting, Store Totals, Non-Resettable Totals and Line Item Discounts.
 - **100% Discount** – can now be applied in total time and line discounts 1/2/4/5.
 - **Food Stamp Handling** – has been enhanced to simplify the paper vs. EFT management for cashiers.
 - **T-Log Consolidation** – POS now consolidates to the server transaction log after the transaction is completed, ensuring synch between the StoreNext Connected Services reports and the ScanMaster in-store totals.
 - **Item and Movement Reports** – can now be provided in Acrobat (PDF), Microsoft Excel, Microsoft Word, RTF, tab-separated text and text formats.
