

ScanMaster® Support from StoreNext

Get the Real Thing — ScanMaster Software Support from your Certified StoreNext Dealer

When your ScanMaster support comes from a Certified StoreNext dealer, you get a lot more — including a great future for your software

StoreNext dealers can now give you the long-term software support you need for your ScanMaster stores — no strings attached.

With StoreNext's takeover of the ScanMaster system in March 2005, the nearly 4,000 independents and regional chain stores using this market-leading POS software finally have the unprecedented opportunity to get their software support "from the source."

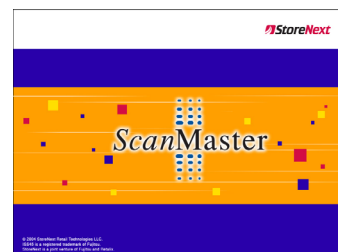

StoreNext is proud to add ScanMaster to its 100% independent-oriented product arsenal, including U-Scan, Connected Services, RBO, PocketOffice, and Pricer Electronic Shelf Labels. StoreNext is not only providing all these products with full ScanMaster integration, but we're also adding a long list of features ScanMaster users have long wanted.

For example, ScanMaster from StoreNext already — and exclusively — offers new capabilities such as shopper photo ID, multimedia-by-lane and full touch-screen operation. Unlike the "capped" releases from elsewhere offering no new features, ScanMaster from StoreNext gives grocers a rich, long-term feature RoadMap.

When a StoreNext dealer provides your ScanMaster support, you'll receive:

- ✓ *A true long-term commitment "from the source" — to the ScanMaster system and the independent grocers who use it.*
- ✓ *A stream of no-charge new features — available only from StoreNext. The new ScanMaster 2.1.2 gives you even more electronic journal power, SIL field mapping, new SRR features and much more.*
- ✓ *Support for your existing V1 and V2 ScanMaster software — not ready to install StoreNext ScanMaster 1.3 or 2.1.2? No problem — StoreNext supports and fixes for older ScanMaster releases too!*
- ✓ *Full value/full future for your ScanMaster investment — no arm-twisting to turn your store operations upside-down for the sake of untried and unproven software.*
- ✓ *Fully-validated software — ScanMaster releases will be fully-coordinated with RBO, U-Scan and other StoreNext systems.*
- ✓ *Fix 'em AllSM — StoreNext's software philosophy now extends to ScanMaster too! Whenever a fault is identified, the fix plan is immediately posted; your StoreNext dealer can always tell you what the upcoming releases will provide and when they're coming. With ScanMaster support from StoreNext, you can plan ahead.*

Want proof? Get your free copy of StoreNext's inaugural *ScanMaster Release Notes*, fully describing all the great new features ScanMaster 2.1.2 has for you. Call your StoreNext dealer or visit our Web site at www.StoreNext.com.
