

# U-Scan6 Self-Checkout

**Ease of use for large orders**

## **Bigger Orders - Better Shopper Service**

The U-Scan6 Carousel offers all the convenience of self-checkout with increased capacity for large orders. The rotating bagging platform contains six bag racks and the option to add a secondary bagging platform. The rotating platform provides shoppers with easy accessibility to the bag racks and limits body strain caused by reaching while bagging purchases. With this larger capacity, U-Scan5 will cut the lines at your standard staffed lanes too, improving service for ALL your shoppers.

Measurements are approximate. U-Scan<sup>®</sup> layout availability is subject to individual store set-ups, e.g.: accessibility to electrical outlets, width of shopping carts, direction of exit, etc.
