Datatek Partners with StoreNext to Offer Point-of-Sale Solution

Florida and Carribbean Independent Grocers Gain Access to ScanMaster and ISS45 Software

WESTON, Florida — Dec. 12, 2005 — StoreNext Retail Technologies LLC and Datatek have completed an agreement that gives independent grocers in Florida and the Caribbean access to a dealer for sales, service, and support for StoreNext's product lines including ISS45 and ScanMaster.

StoreNext acquired distribution rights to the ScanMaster POS system earlier this year. StoreNext now offers the ScanMaster software on the powerful TeamPoS hardware from Fujitsu, including integrated touchscreen capability. StoreNext's PocketOffice, providing remote management and control of the store's front end via a hand held device, is also now integrated with ScanMaster and ISS45.

Both ISS45 and ScanMaster also integrate with StoreNext's Connected Services, enabling management reporting and data control via the Internet.

"ScanMaster in particular has a very strong base in Florida," said Datatek president Jim Brown. "We are the only authorized dealer for ScanMaster in South Florida and most of the Caribbean. That means that we can offer existing ScanMaster customers service and support, as well as a great upgrade path within ScanMaster.

"This way, ScanMaster users won't be forced to switch to an entirely new POS systems just to stay current, as they would from other dealers. The clear advantage for grocers is being able to upgrade their ScanMaster software to today's state-of-the-art performance and capabilities without the high cost, retraining and disruption of changing over to a completely different product. With the upgraded

ScanMaster releases from StoreNext, grocers get about 50 new features and capabilities, and since their employees already know ScanMaster, the costs and problems from a full-scale changeover are eliminated.

“We’re excited to be working with StoreNext,” Brown continued. “StoreNext is the industry leader in technology for independent grocers, adding tremendous depth to the tailored solutions that we fit precisely to the needs of our grocer customers.”

About Datatek

Datatek has been based in Weston, Florida since 1994. The company specializes in point-of-sale software and hardware for the grocery and hospitality industries. Datatek offers credit card processing solutions that can dramatically reduce your monthly transaction fees. In addition, Datatek offers complete store sign package solutions which include custom labels, shelf talkers, and banners. The company can be reached at (305) 677-2031 in Miami-Dade and (954) 277-7471 in Broward County.

About StoreNext

StoreNext Retail Technologies LLC is the No. 1 supplier of retail technology to independent grocers and regional chains. Based in Plano, Texas, StoreNext is a joint venture of Retailix Ltd. (NASDAQ: RTLX) and Fujitsu Transaction Solutions Inc. and markets Fujitsu POS hardware, Retailix’s ISS45 and ScanMaster POS software, Retailix Store and Retailix HQ, as well as Internet Connected Services for managing stores via Web-enabled applications. StoreNext is the IT company that’s dedicated to meeting the needs of this wholesaler-served market with packaged solutions that were previously available, affordable or practical only for large chains.
