318831 – ISS45 V8 Option and Advanced Promotion Option are not required on HASP for operation as of this version.	4
Out of Scope	5
Dependencies	6

Introduction

Enhancements were recently made to the StoreNext ISS45 system. The changes are reflected in the accompanying ISS45 8.1.6.0-080 software. The Change Request Document (CRD) number assigned to each enhancement is listed in the description heading.

The Change Request Document (CRD) number assigned to each enhancement is listed in the description heading. Following the change description is an abbreviation (or combination thereof) of the ISS45 area affected:

(BO) – Back Office

(POS) – WinPOS

(Sys) – System / Services

These enhancements are explained in detail in the following pages and are not included in the latest Office Users Guide, WinPOS User Guide or Office Administrator's Reference. If you have any questions regarding this release, please contact StoreNext Support.

Note:

Retalix Global Payments MTX Release 827.2 SP1 or higher REQUIRED for this release.

316021 – Fujitsu U-SCAN Self-Checkout Support for DRE (POS)

In sites using Retailix Loyalty, the StoreLine Dynamic Receipt Engine (DRE) is now supported on Fujitsu U-SCAN Self-Checkout Terminals. This feature allows target messages (barcodes, vouchers, images) to be printed at Self-Checkout Terminals.

Note:

At the end of a Self-Checkout Terminal ticket, a new POS_DYNAMIC_RECEIPT_XML_FILE message (Op Code 366) is sent to the printer (along with the file name of the XML). The Self-Checkout Terminal parses the XML message for printing (which is control by the U-SCAN printer).

322075 – Add support for Preservation of previously swiped card information when using PINPad to Prompt for Total Rounding using MTX function.

Customer will no longer be prompted to swipe their card twice if they swiped during the sale. Pinpad will pick up where it left off after data entry is complete.

Note:

Retailx Global Payments MTX Release 827.2 SP1 or higher REQUIRED for this release.

318831 – ISS45 V8 Option and Advanced Promotion Option are not required on HASP for operation as of this version.

Out of Scope

Limitations of new features in this release are listed below (and were not addressed in development).

Note:

The limitations below are known as of this writing, and are provided in order to assist users and support personnel to plan, install and operate the capabilities described in this document. While StoreNext Retail Technologies LLC endeavors to ensure that this information is correct and fairly stated, no attempt is made here to catalog all limitations that could be construed or that may become known in the course of use or experience.

FSD Number	Enhancement	Out of Scope
316021	Fujitsu U-SCAN Self-Checkout Support for DRE	1 - Registry: Set this DWORD value to 1. If the key is not there, add it. \\HKEY_CURRENT_USER\Software\OptimalRobotics\Robot\Order Manager\PrintCustRcptImmediateOnBetweenOrders 2 - c:\Program Files\POSWare\WinPOS\VPOSCFG.INI: Add the following lines under the {VPOSConfig} section: UseDynamicReceipt=1 PrintDynamicReceiptHeader=1

Dependencies

Dependencies to utilize new features in this release are listed below.

FSD Number	Enhancement	Dependencies
322075	Preservation of previously swiped card data	1. Requires Retailix Global Payments MTX release 827.2 SP1
