Introduction

New features were made recently to the ScanMaster system as a result of customer change requests. These changes are reflected in the accompanying 2.09.00-140 software.

These enhancements are explained in detail in the following pages and are included in your ScanMaster 2.09 User and Installation Guides.

Note:

ScanMaster Release 2.09.00-110 and higher requires the Self-Checkout option on the HASP be set. The ScanMaster system will not work with any Self-Checkout system unless the setting is on.

SSCO Product Launch

As of the 2.09.00-140 release, the NCR Self-Serve Checkout is now a fully released and supported product. When purchasing the SSCO, the SSCO will be accompanied by a CD labeled “NCR 7350 FastLane Application for NCR ScanMaster and ISS45”.

The ScanMaster Transaction Broker content will be found on the CD in the folder structure - **ScanMaster_TB_Integration\SSCO_SM**. Please reference the “ScanMaster SSCO Installation Guide.pdf” on the CD for full instructions of installing the SSCO.

Connected Payments EMV Certification

EMV testing with the Verifone MX915 and MX860 terminals

The following versions were tested for certification:

MX915:

dl-NCR-915-F445A-X5200J20-USB-TWR-K.tgz

OS version - 1.6.14.1404

App version – mx_xpi_5200J-Build 20 2/22/16

MTX_EPS.dll – 828.7.21.26

MTX_POS.dll – 828.1.0.98

MX860:

Mx860_F264A-X4200NB2-USB-TW.tgz

OS version – MX0007US/RFS00018

App version – 2.6.4A-03 – Feb-2016

MTX_EPS.dll – 828.7.21.26

MTX_POS.dll – 828.1.0.98

Other Enhancements

- This release was tested with the available Windows Updates applied 5/23/16.

MFS1 - Nobilis - Windows 7 Profession SP 1 64-bit OS

POS - Fujitsu 3600 – POSReady 2009 SP 3

POS - RealPOS 60 - Windows Embedded SP1

Technical Reference Appendix

Out of Scope

Limitations of new features in this release are listed below (and were not addressed in development).

Note:

The limitations below are known as of this writing, and are provided in order to assist users and support personnel to plan, install and operate the capabilities described in this document. While NCR Channel Partners endeavors to ensure that this information is correct and fairly stated, no attempt is made here to catalog all limitations that could be construed or that may become known in the course of use or experience.

Enhancement	Out of Scope
Connected Payments EMV support	Connected Payments EMV support is available for the current release only (and will not be made compatible with previous ScanMaster releases).

Dependencies

Dependencies to utilize new features in this release are listed below.

Enhancement	Dependencies
Connected Payments EMV support	1. EMV must be running with the approved versions listed

© NCR Corporation, 2016

NCR endeavors to ensure that the information in this document is correct and fairly stated but does not accept liability for any error or omission.

The development of NCR products and services is continuous and published information may not be up to date. It is important to check the current position with NCR. This document is not part of a contract or license, save insofar as may be expressly agreed.
