PocketOffice Dashboard-Anywhere Feature/Icon

PO-TECH-06:06
March 28, 2006

The PocketOffice Dashboard-Anywhere Icon provides the ability to quickly jump to the PocketOffice Dashboard module from other PocketOffice Modules without exiting the module from its current state.

The icon appears in the upper right-hand corner of the active PocketOffice screen:

Dashboard Anywhere Icon ---→ 

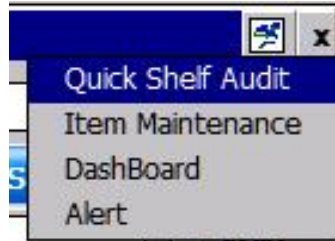

The screenshot shows a PocketOffice screen with a blue header bar containing the Dashboard Anywhere icon in the top right corner. Below the header is a numeric keypad with buttons for digits 1-9, 0, and a 'C' (clear) button. Underneath the keypad is a text input field labeled 'No' with a small icon to its right. Below that are two more text input fields: one labeled 'Qty' and another labeled 'Price' followed by 'Cur' and a third empty text input field. At the bottom of the screen are three blue buttons labeled 'Exit', 'Cancel', and 'Clear'.

When the button is tapped, a list of available module that can be quickly accessed appears:

Tap the module you wish to access. After moving to another module, the Dashboard-Anywhere Icon will not be displayed. Exiting this module will lead the user back to the module from which the icon was tapped.

Note: after moving to another module chosen from the Dashboard-Anywhere Icon, the user will not be able to exit to the main modules screen directly. The user will have to first return to the screen from which the icon was tapped.
