

Subject: D15 External PSU Cable Clamp

Overview

The Barrel type connector the new External D15 PSU (11002379) has been found to not fit tightly and is easily pulled loose. Reference PSB-08-001 for details of this new PSU.

Solution

An adhesive cable clamp is available for the D15 display stand to prevent the cable from coming loose. For logistics and field repairs, order a cable clamp (11002957) along with the new External PSU (11002379) whenever the old power supply fails.
