

**Subject: New Produce Camera**

**New Product Introduction**

A new low profile CMOS USB Produce Camera is being released for the Genesis U-Scan. This new camera mounts to the top of the LCD display.

This new camera replaces the previous version camera Part# 11001214Z6-XXA.

For Installation Instructions reference "Genesis Hardware Manual V.03".

**Software**

A new USB Driver is required for this camera. These drivers are included with any recent images and can also be located on the Sustaining FTP site below. Reference the Installation and Maintenance Manual above for installation instructions. This camera/driver does not support Windows 2000 Operating Systems.

**Components of the USB Produce Camera**

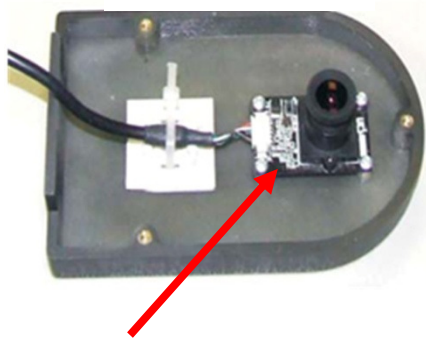

The USB Camera manufactured assembly (11001214Z7-XXX) and field kit (11001214F7) include the following components:

- USB Camera 11002532
- Supplied USB Cable 11002837
- Camera Enclosure 11002522
- Camera Bracket 11002523
- 4" Tie Wrap 11001791
- Cable Mount 11003258

The Field Kit also contains a drill template for units that do not have predefined knockouts. This template is also available on the Sustaining FTP site below.
