

Subject: Datalogic Scanner/Scales

Update A: Typo correction, 11003556 is an 8500XT, was originally listed as an 8500XTS.

Datalogic has issued an End Of Life notification for the 8502 and 9504 Scanner/Scales that are used in our U-Scan product lines. These models are replaced by the Datalogic 8500XT/XTS Scanner/Scales. This has also required changes to some of the mounting hardware in the U-Scan Genesis to allow the new Scanner/Scale to be properly installed. When used in Next Gen or LT U-Scan systems, no additional hardware kits are needed.

Current Parts (Some are withdrawn, some will continue to be available to support customer installations)

| Description | EOL Part # |
|--|------------|
| Datalogic 8502 Magellan Bi-Optic Scanner (with AC Adapter and I/F Cable) | 11000965 |
| Datalogic 8502 Magellan Bi-Optic Scanner, with Display, US | 11001737 |
