

Subject: CX25 Coin Dispenser Replaces Coin Xpress

Overview

The Hopper type Coin Xpress (CX) Coin Dispenser is now EOL and being replaced by the CX25 Coin Dispenser.

The CX Dispenser is EOL from a production standpoint but will continue to be supported by the manufacturer.

The CX25 is the new version of the Hopper type Coin Dispenser.

If a CX25 is being installed into a Genesis Unit that currently has a CX installed, the software must be at version 4.3.1 or above to include the updated driver. If not already at this version, please contact the Software Project Manager for that customer. The driver is downward compatible (works with either dispenser).

Below are the parts lists for CX25. Other components (cables, PSU etc) are common with the existing CX dispenser. The individual Coin Rotors currently used in the CX are also common with the CX25.

Description	Supplier Part #	Fujitsu #	Notes
CX25 Dispenser, 4 Hopper, US, USA10	JG5RNNYN-8MUC6	11003667	Layout N-05-25-10-01
CX25 Dispenser, 6 Hopper, CAN, CAN2	JE8RNNYK-8MUC6	11003668	Layout 10-25-200-100-05-01
CX25 Dispenser, 6 Hopper, Eur, EUR09	JE8RNNZF-8MUC6	11003669	Layout 01-50-200-100-10-05

All future updates of the Genesis U-Scan SPG and Manuals will include the CX25 Coin Dispenser.

Impact

- Production
 - All units shipped during or after July 2010 (that have a Hopper dispenser) will have the CX25 unit.
- Installed Units No Impact.
- Repair Center No Impact.
- Service Spares No Impact. New part numbers added to Spares System.
